ARRIVED.

by the meeting.

in the absence of Dr. Macdonald, Dr. Scott

presented the President's Report.

As view of the fact that a printed copy of the

President's Report has been placed in the hands of the members

it was moved by Dr. Macdonald, and seconded by Dr. Scott

that the Report be taken as read.

In the absence of Dr. Webster, Chairman of the Educational Committee, Dr. Grieve presented a verbal report for the Educational Committee.

DISCUSSION of the Reports followed, the following taking part:-

Dr. Gordon MacLean in discussing Research Work, suggested that the Canadian Oral Prophylactic Association give a grant to the Canadian Dental Research Foundation.

Major Semple brought up the subject of having dental articles inserted in the press, he suggested that subjects for articles be given to different Dentists requesting them to write it up.

Dr. Bothwell, Stratford, thought the idea of securing a manager to look after the entire interests of the Association an excellent one and should be adopted at once.

Dr. Bennett, St. Thomas, advised getting a good man and paying him a good salary and thought he ought to double our income.

Dr. Conboy gave a very interesting address on his work as Supervisor of Dental Inspection, advising the encouragement of Municipal and Factory Clinics..

Dr. Grieve brought up the matter of the appointment of Oral Hygienists and also discussed the advisability of continuing our connection with the Canadian Dental Association as Educational Committee.

Dr. Bothwell, Dr. Bennett, Dr. Conboy, and Dr. Chas. Lennox, all advised continuing as the Educational Committee, Dr. Conboy,

In the absence of Dr. Webster, Chairman of the

Editorial Committee, Dr. Grieve presented a verbal report

for the Editorial Committee.

Discussion of the Report followed, the following being the

Dr. Gordon Nelson in discussion, Research Work, suggested

that the Canadian Oral Propaganda Association give a grant

to the Canadian Dental Research Foundation.

Major Temple brought up the subject of paying dental

articles included in the press, he suggested that subjects for

articles be given to different dentists regarding them to

write it up.

Dr. Rothwell, Bristol, brought the idea of appointing

a manager to look after the entire interests of the Association

an excellent one and should be adopted at once.

Dr. Bennett, St. Thomas, advised getting a good man and

paying him a good salary and though he ought to handle the work

Dr. Guppy gave a very interesting address on his work

as Secretary of Dental Inspection, advising the Association

at Montreal and Quebec Clinics.

Dr. Grieve brought up the matter of the appointment of

oral hygienists and also discussed the advisability of

continuing our connection with the Canadian Dental Association

as Editorial Committee.

Dr. Rothwell, Dr. Bennett, Dr. Guppy, and Dr. Ghas. Tenn

all advised continuing as the Editorial Committee, Dr. Guppy,

suggesting that Canadian Dental Association appoint one prominent Dental Educationalist in each Province to be added to the Committee.

Dr. Snell discussed the Lady Oral Hygienist suggesting that she be connected with some institution instead of with the individual dentist.

Dr. Conboy suggested paying the Publicity man and getting articles in the papers.

Moved by Dr. Broughton, seconded by Dr. Trotter, that the Financial Report be adopted.

CARRIED.

Moved by Dr. Adams, seconded by Dr. Trotter, that this meeting adjourn to the call of the President, and that the discussion of the President's Report, the Educational Committee's Report, also Budget, election of officers, and the date of the Annual Meeting be left till that meeting.

CARRIED.

W. Cecil Walker

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of the Postponed Annual meeting held at Hunt's on Yonge Street, at the hour of 6.30 O'clock in the evening on the Twenty-second day of March, A.D. 1920, with Dr. Trotter in the chair.

PRESENT:

Dr. Adams, Dr. Black, Dr. Broughton, Dr. Day, Dr. Grieve
Dr. Gausby, Dr. Henderson, Dr. Jordon, Dr. MacLachlan
Dr. McDonagh, Dr. Nicholls, Dr. Paul, Dr. Trotter,
Dr. Webster, Dr. Willmott, Dr. Eaton, Dr. Bell,
Dr. Scott, Dr. Ellis, Dr. Baird, Dr. Mathieson,
Dr. Semple, Dr. Thompson, Dr. Coon, Dr. McLean,
Dr. Abbott, Dr. Husband, Dr. Snell.

VISITORS:

Dr. R. J. Reade, Dr. Harold Box,, Dr. Plaxton,
Dr. Godfrey.

The Minutes of the last Meeting were read by the Secretary.

Dr. Trotter suggested that, before hearing the reports, we proceed with the elections, and called for nominations for the Board of Directors.

Drs. Willmott & Ellis were requested by Chairman to act as Scrutineers.

Nominations for Board of Directors:

Dr. McDonagh, Dr. Trotter, Dr. Nicholls, Dr. Broughton
Dr. Adams, Dr. Eaton.

Scrutineers reported that Dr. McDonagh, Dr. Trotter,
Dr. Broughton, elected on first ballot and Dr. Adams, Dr. Eaton,
and Dr. Nicholls, tie. Dr. Adams requested that his name be

withdrawn.

Moved by Dr. Willmott seconded by Dr. Semple that Dr. Adams' resignation be accepted.

CARRIED.

The Following nominations were received for the Educational Committee;-Dr. Webster, Dr. Adams, Dr. Semple, Dr. Gausby, Dr. Ellis, Dr. Conboy, Dr. Grieve, Dr. J. P. MacLachlan, and Dr. Mathieson.

While waiting for the report of the Scrutineers, it was moved by Dr. Webster seconded by Dr. Adams that the Budget By-law in accordance with Clause D of the constitution "that the sum of Two hundred dollars, (\$200.00), be appropriated to cover any expenses of special and general meetings for the year 1920 and for any out of pocket expenses of the Members for the year 1920".

CARRIED.

Moved by Dr. Coon, seconded by Dr. McDonagh, that the motion passed by the Board of Directors to change the date of the Annual Meeting from third Monday to third Tuesday of January, be confirmed.

CARRIED.

Scrutineers reported the following elected as members of the Educational Committee:-

Dr. Adams, Dr. Ellis, Dr. Webster, Dr. Grieve,
Dr. MacLachlan, Dr. Gausby, Dr. Conboy.

The Chairman called on Dr. McDonagh to read a report from the Dental Research Committee.

Dr. Box reported his work in connection with the Dental Research Committee of the University of Toronto which is financially supported by the Canadian Oral Prophylactic Association, stating that due to his work in this Department and a thesis on Histology which he is preparing, he expects to be granted his Ph. D. standing being the first Dentist to receive this honor.

The different subjects taken up by Dr. Box were:-

Dental Cementum,
Innervation of Dentine,
Innervation of Pulp Blood Vessels,

Some of the subjects under observation by Dr. Box in the Research Department are:- Pathology of Pus Pockets, Chronic "blind abscesses" and relation to Granuloma, Cysts and their relation to Granulomas, Classification of Cysts, Condensing Osteitis, Pulp Pathology - Stimulation of pulp by Heat, cold, blow, arsenic etc. Bacteriology - Diseases of gingivae, Bacteria eliminated, tissue function, etc.

Dr. Box also stated that with the permission of the University of Toronto that he reported this work at New Orleans and New York.

Dr. Webster in reporting for the Educational Committee spoke of the extension of the Educational work to the public through the Public Health Department of the Dominion Government. The speaker had arranged with Dr. A. - Deputy Minister not to send out any Dental Literature without consulting the Educational Committee of the C.D.A. also stating that the Department were quite willing to send out any Dental Literature we furnish them with.

The Reports were then open for Discussion.

Dr. Grieve asked Dr. Box if the University of Toronto would publish his thesis or if the student was expected to do it out of his own pocket and suggested that the C.O.P.A. might do the publishing.

Dr. Box read the University regulations covering this point.

Replying to a question asked by Dr. Trotter as to the possibility of the *Research Foundation Committee* working through the University Research Committee if ~~we~~^{they} got representation on that Committee. Dr. Gordon McLean stated that he thought a great deal of the research work could be better done through the University but that such work as Dental Prosthetics could be handled better in the Dental College, ^{he} thought the best time to talk of combining was when they got sufficient funds then have a combined meeting of committees and discuss the best means of economizing.

A full discussion on this subject of Research followed, a large number taking part.

Moved by Dr. Grieve and seconded by Dr. Ellis that the reports be adopted.

CARRIED.

Moved by Dr. Broughton that we adjourn.

CARRIED.

G. H. Drayh

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

CARRIED.

The Minutes were read by the Secretary and adopted by the Meeting.

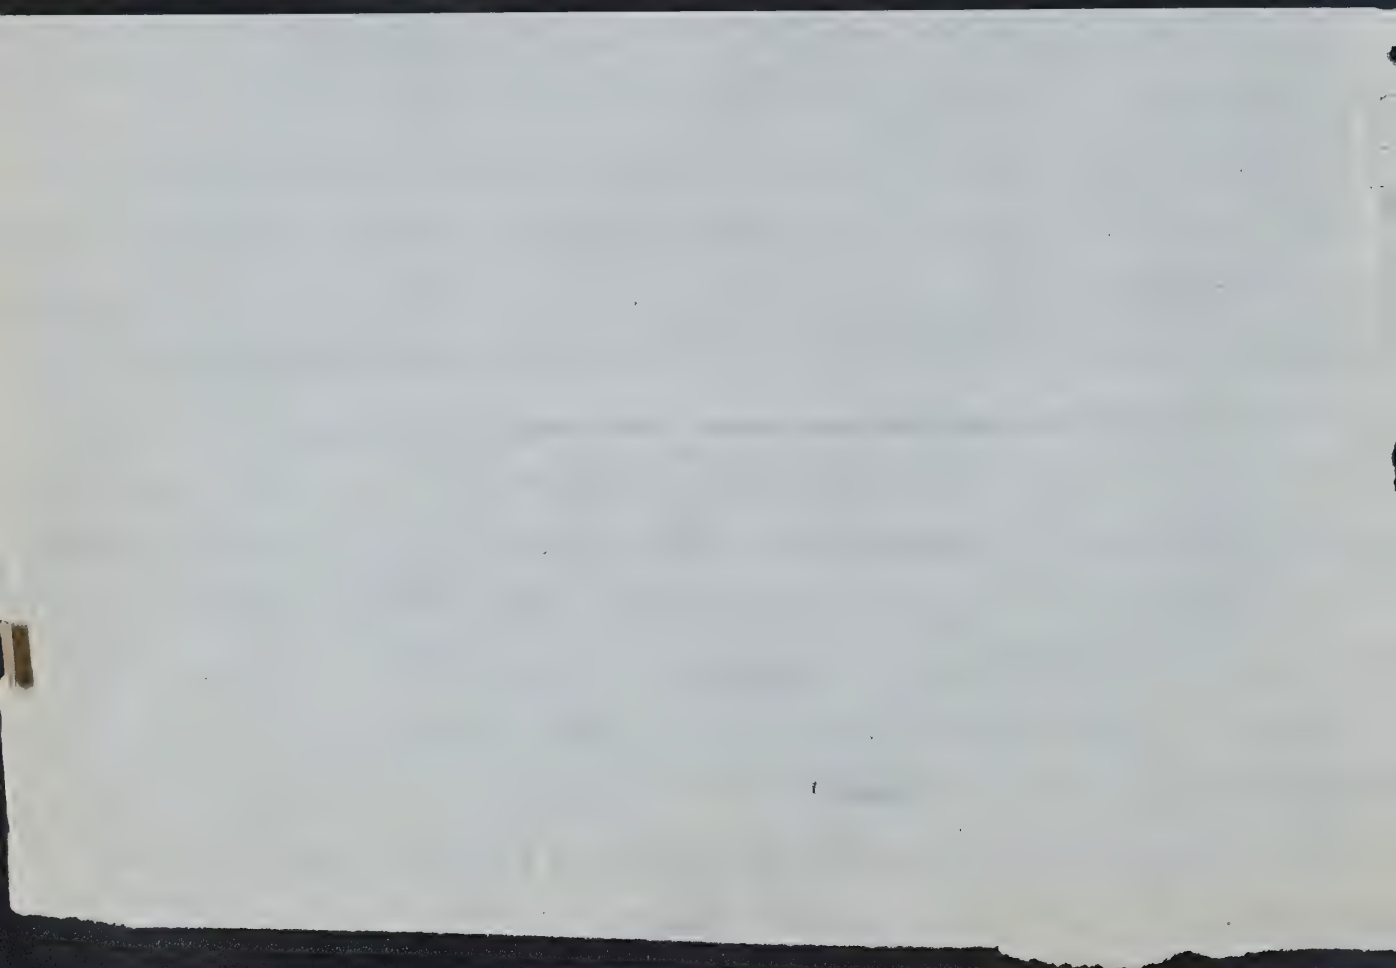

Moved by Dr. Webster and seconded by Dr. Willmott that Dr. Trotter be appointed Chairman of the Meeting while Dr. McDonagh presented the President's address.

CARRIED.

Dr McDonagh's President's address -

Dr. McDonagh reported on the change in our management and the engaging of Dr. Harry S. Thomson as Dental Executive and outlined the work that had been accomplished since that appointment. He dealt with the opening of an agency in the United States for Hutax Brushes and expressed his hope for a big revenue from that source and expressed his opinion that he hoped it would only be a short while until we were selling our Hutax Brushes in England, Australia and many foreign countries. This report also referred to the change in the constitution of the Canadian Dental Association which discontinues our services as Educational Committee of the C.D.A.

Dr. McDonagh closed with a plea for the further support of all the members and his own and the Association's thanks for the support and help they had already given which had made it possible for us to accomplish the good we have done.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

* 2 -

The Financial Report was presented by the Secretary Treasurer.

Dr. Thomson presented the report of the Dental Executive.

The Chairman then declared the different reports open for discussion-

Dr. Day - suggested that more bristles be added to the Hutax Brush, thought the brush rather skimpy.

Dr. McDonagh - thought that perhaps Dr. Day had been using some of the Japanese Brushes, as Kent's brushes contained the same number of bristles as the Rolling Brush.

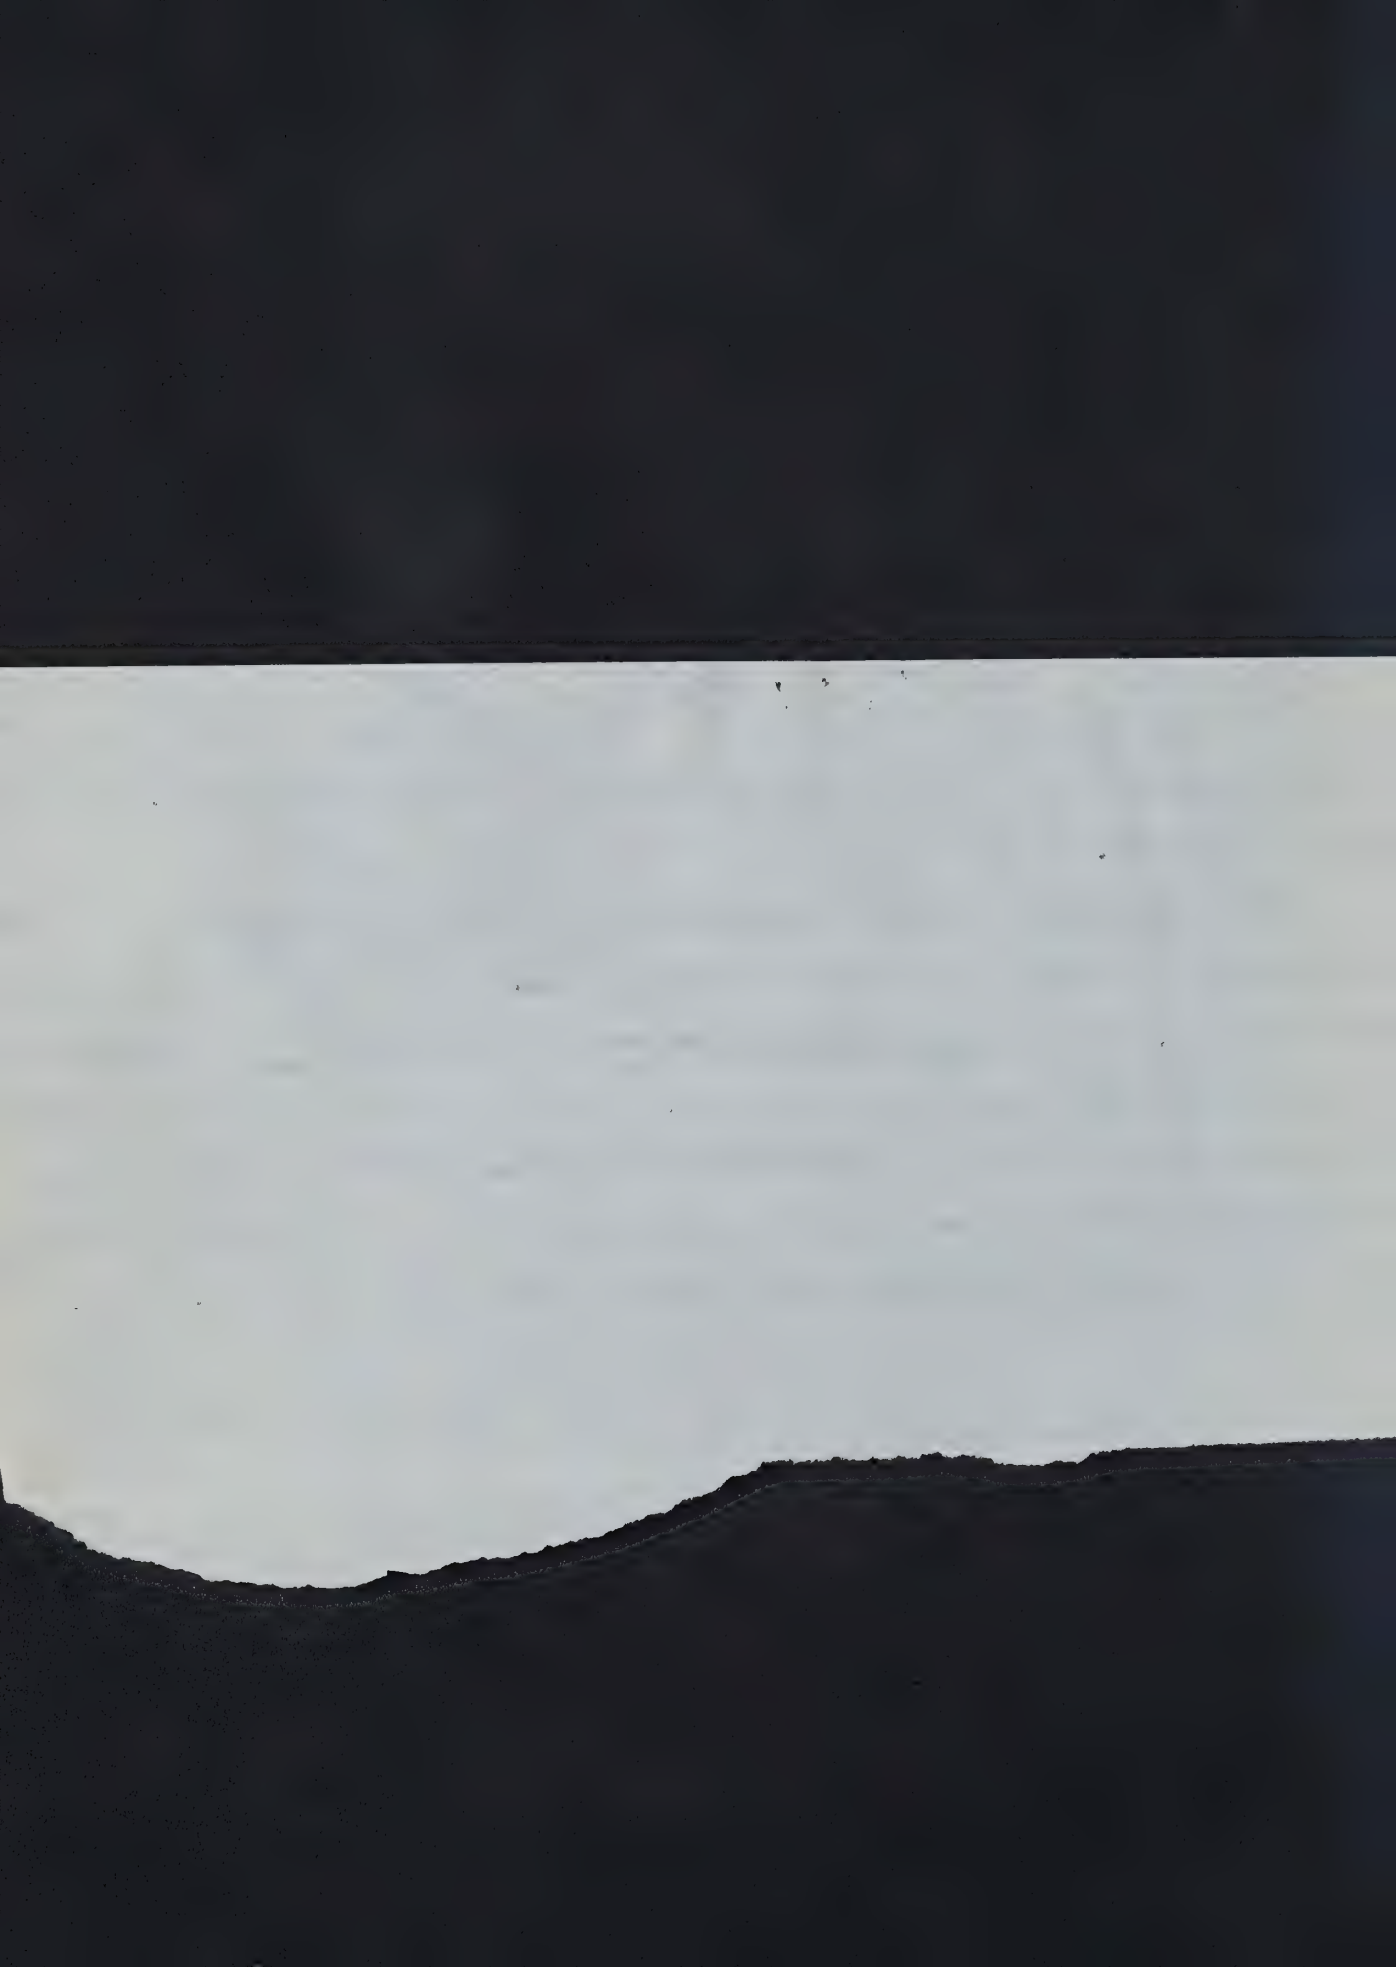

A general discussion followed on the merits of the brush, the advisability of advertising, the Lambert Pharmacal Company agreement the sale of Hutax products, and the future possibilities.

MOVED by Dr. Ellis seconded by Dr. Grieve that the reports be adopted.

Moved by Dr. Day seconded by Dr. Webster that the reports of the Executive passed at a meeting regarding the by-law-
No. I - That the company be and it is hereby authorized to apply to the Honorable the Lieutenant Governor of Ontario for an order changing the corporate name of the Company, The Canadian Oral Prophylactic Association to that of The International Oral Prophylactic Association, To be known as By-law No. 5.

moving picture films used at exhibitions and Fall Fairs Etc. Etc. from coast to coast.

The Department of Dental Research Report: told of the work done at the University of Toronto on cements and amalgams. Also work done along lines of diet etc. All of this could only be reported on in progress as none of it was completed yet. In closing Dr. Thomson hoped for a bigger revenue to enable us to carry on some of the work we see now is so necessary and expressed a wish that we could co-operate with all other Educational and Research Committees for the common good of Dentistry in Canada.

B/10- No.2- That the sum of three hundred dollars be appropriated to cover any expenses of special and general meetings for the year 1921 and any out of pocket expenses for the members for the year 1921, be accepted.

(The Secretary reported from the Executive.)

CARRIED.

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of a Board Meeting of the Canadian Oral Prophylactic Association held at Dr. McDonagh's office 2 East Bloor Street, at the hour of 6.15 O'clock in the evening on the 12th of January 1922.

PRESENT: Dr. McDonagh, Dr. Eaton, Dr. Nicholls, Dr. Broughton.

Moved By. Dr. Eaton, seconded by Dr. Nicholls that the Budget by-law in accordance with clause D of the Constitution "that the sum of \$300.00 be appropriated to cover any expenses of special and general meetings for the year 1922 and for any out of pocket expenses of the members for the year 1922"

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of an Annual Meeting of The Canadian Oral Prophylactic Association held at Hart House, Toronto, at 7.30 O'clock in the evening on Tuesday January 17th. A.D. 1922.

PRESENT: Dr. Brethour, Dr. Semple, Dr. McDonagh, Dr. Clarkson,
Dr. Ellis, Dr. Coon, Dr. Snell, Dr. Ball
Dr. Dickson, Dr. MacLachlan, Dr. Jordon, Dr. Winter,
Dr. Eaton, Dr. Nicholls, Dr. Willmott, Dr. Gausby
Dr. Grieve, Dr. Fisk, Dr. Trotter, Dr. Adams
Dr. Webster, Dr. Gunton, Dr. Mathieson, Dr. Rhind
Dr. Walker, Dr. Henderson, Dr. MacLean, Dr. Husband
Dr. Scott, Dr. Baird, Dr. Bell, Dr. Zeigler
Dr. Wollatt, Dr. Roper, Dr. Thomson, Dr. Broughton.

After partaking of dinner it was moved by Dr. Grieve and seconded by Dr. Trotter that Dr. McDonagh take the chair.

CARRIED.

The Minutes of the last Annual Meeting were read by the Secretary and approved by the meeting.

At the request of the President Dr. Trotter took the chair during the reading of reports.

Dr. McDonagh in his President's address reviewed the activities of the year particularly relating to the Lambert Pharmacal Company and to the United States Business, stressed the need of greater co-operation on the part of all the members to boost the sale of Htax, and referred to the loss sustained by our Association in the death of Dr. Loftus one of the first members of the Association and one who always took an active interest in its affairs.

The Financial Report was Presented by the Secretary-Treasurer.

The Chairman then declared the reports open for discussion the following members taking part:

Dr. McLean, Dr. Jordon, Dr. Husband, Dr. Baird,
Dr. Webster, Dr. Woollatt.

Moved by Dr. Grieve seconded by Dr. Ellis that the reports
be adopted. CARRIED.

Moved by Dr. Broughton seconded by Dr. Semple that the
report from the Board regarding the Budget By-Law in accordance
with Clause D of the constitution be approved, "that the sum
of three hundred dollars (\$300.00) be appropriated to cover any
expenses for special and general meeting for the year 1923 and
for any out of pocket expenses for the members for the year 1923"

CARRIED.

NEW BUSINESS

Dr. Grieve suggested enlarging the Association and
slightly changing the name to include dieticians, teachers etc.,
to gain representation on Boards of Health; to establish courses
on Health and Disease in Normal Schools, Universities, etc.;
to teach all classes of people proper diet and mouth health
and to impress them with the great importance of eliminating
all causes of ill health.

Moved by Dr. Semple seconded by Dr. Trotter that the Board and Educational Committee take into consideration the advisability of enlarging the membership of the Association as outlined in suggestion above and follow out as suggested.

If thought advisable

CARRIED.

Dr. McDonagh suggested the formation of a series of Canadian Oral Prophylactic Association Study Clubs throughout the Dominion.

Moved by Dr. Broughton seconded by Dr. Semple that this matter be left in the hands of the Board.

CARRIED.

ELECTION

Moved by Dr. Willmott seconded by Dr. Adams that the Secretary cast a ballott for the election of Drs. Trotter, Eaton, Nicholl, Broughton and McDonagh for the Board of Management.

CARRIED.

* * * * *

MINUTES OF a meeting of the Board and Educational Committee
of The Canadian Oral Prophylactic Association held at Dr. McDonagh's
office, 2 Bloor Street East, Toronto, on April 10th. at 5 o'clock.

PRESENT: Drs. McDonagh, Trotter, Eaton, Nicholls, Grieve,
Adams, Gausby, Semple, Woollatt, Ellis, Webster, Broughton,
Thomson.

Dr. Gausby reported from the Programme Committee of the Ontario Dental Association Convention recommending that the C.O.P.A. Meeting be held on May 18th.

Dr. Webster was appointed to see if the C.O.P.A. Meeting can be arranged at Hart House for the May 18th.

Dr. Woollatt was appointed to look after the Music at the dinner meeting on May 18th.

Dr. Thomson gave the report of his trip to the west. He stopped in twenty places on the way to Victoria and back and made one hundred and seven addresses.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association, held at Dr. McDonagh's office , on May 4th, 1922, at 5 O'clock.

PRESENT: Dr. McDonagh, Dr. Eaton, Dr. Trotter, Dr. Broughton,
Dr. Thomson.

Dr. Thomson was instructed to write the Lambert Pharmacal Co. that he will go down to St. Louis to discuss the brush question with them after the convention, (after the 19th of May).

Dr. Thomson presented an offer from Lyman Bros. of a 4¢ royalty per tube for 1000 Gross they to pay 5% and us 5% to the Gibson-Pattison Co. on their sales for the west. Dr. Thomson was asked to see if arrangements could be made on 500 Gross and a readjustment made when the present stock of tubes are finished.

The meeting discussed the advisability of calling off the dinner meeting to be held during the convention on account of the early closing of Hart House. Decided to leave the matter until Dr. Thomson has interviewed Hart House again.

Decided to postpone the study club indefinitely owing to the general meeting of Toronto Dentists at the College.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

CARRIED.

The Minutes of the last Annual meeting were read by the Secretary and approved by the meeting.

At the request of the President Dr. Trotter took the chair during the reading of reports.

Dr. McDonagh in his President's address reviewed the activities of the year, referring to the remarkable increase in our business in spite of a general business depression. He remarked that dentists were becoming more interested in our work and were showing that interest by becoming members.

Dr. Grieve reported from the Educational Committee. He spoke of our Dental Executive's trips to Western Canada and the Maritime Provinces and read letters from Dr. Faulkner, President of the Nova Scotia Oral Hygiene Educational Committee

Dr. Mason of the Alberta Dental Association, Dr. Bricker, President of the Vancouver Dental Society and others who all expressed their great appreciation of Dr. Thomson's visit

Dr. Thomson in the report of the Dental Executive announced that despite the business depression existing all over the country that 1922 was the most successful year in our history and enlarged on this. He spoke of our endeavours to bring Hux Products to the highest possible standard and of the results already obtained, referred to our business agents in United States and the position in which we are in, told of his trips to the Western and Eastern Provinces, the number of lectures given to Universities, Women's and Rotary Clubs etc., of the success of these trips and the appreciation shown, of the dinner meeting held at Hart House during the O.D.A. and C.D.A. Convention and also discussed the fact that our membership has been increased by 419 new Members and of the scope of our Association owing to our large membership/

Dr. McLean suggested that we all rise to our feet and give Dr. Thomson a hearty hand clap to show him how ~~very~~ much we appreciate his work.

General discussion of reports followed the following taking part: Dr. Webster, Dr. Price, Dr. Willmott, Dr. Adams, Dr. Jordan, Dr. Semple.

Moved by Dr. Webster seconded by Dr. Willmott that the reports be adopted.

CARRIED.

Moved by Dr. Broughton seconded by Dr. Grieve, that the report of the Board re Budget by-law be endorsed.

CARRIED.

New Business:

Dr. Jordan asked if the Association had ever considered manufacturing a mouth wash and also if we had ever thought of sending samples to the profession.

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association held in Dr. McDonagh's office Monday September 24th 1923.

Moved by Dr. H.E. Fatch seconded by Dr. B.F. Nicholls that a Committee composed of Dr. A.J. McDonagh, Dr. W.C. Trotter, and Dr. H.S. Thomson, be authorized to make a contract with the L.D. Caulk Company of Toronto and Milford, for the Manufacture of Hatax Tooth Paste.

CARRIED.

THE CANADIAN ORAL PORPHYRAEOTIC ASSOCIATION.

MINUTES of a Board Meeting of The Canadian Oral Porphyræotic Association held at Dr. Broughton's office on Friday, January 4th 1924.

PRESENT:

Dr. Trotter, Dr. Eaton, Dr. Thorsen, Dr. Broughton.

It was with great regret that the resignation of Dr. A.J. McDonagh, president, was received. Considerable discussion took place regarding this, but as a number of the members had interviewed him to see if he would reconsider his decision and as he considered this step to be in the best interests of his health, the Committee, on the motion of Dr. Broughton seconded by Dr. Eaton very reluctantly accepted his resignation.

CARRIED.

Moved by Dr. Eaton seconded by Dr. Broughton that the sum of three hundred dollars be appropriated to cover any expenses of special and general meeting for the year 1924 and any out of pocket expenses for the members for the year 1924.

CARRIED.

Moved By Dr. Broughton seconded by Dr. Eaton that the Vice-President Dr. W.C. Trotter be appointed a signing officer in place of Dr. A.J. McDonagh, President, who has resigned.

CARRIED.

Moved By Dr. Eaton seconded by Dr. Broughton that the Annual Meeting be held at Hart House, University of Toronto Tuesday, January 15th, 1924, at 6.30 P.M.

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association held at Hunt's, Thursday, January 10th. 1924.

PRESENT:

Drs. Eaton, Nicholls, Trotter and Broughton.

Moved by Dr. Nicholls seconded by Dr. Eaton, that the Secretary be instructed to inform Dr. H.S. Thomsen that he is at liberty to make any arrangements with the Dominion Dental Hygiene Council he may think fit as regards his services, notwithstanding any agreements he may have with the Canadian Oral Prophylactic Association.

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of an Annual Meeting of The Canadian Oral Prophylactic Association held at Hart House, University of Toronto, on Tuesday the 15th day of January 1924, at the hour of 6.30 O'clock in the evening.

PRESENT:

Drs. Adams, Black, Baird, Coon, Grieve, Henderson, MacLachlan, McDonagh, McGill, Nicholls, McLean, Price, Trotter, Snell, Webster, Willmott, Gausby, Eaton, Scott, Ellis, Clarkson, Gardiner, Rhind, Fisk, Ball, Wunder, Barbour, Thomson, Semple, Irvine, Sivers, Husband, and Broughton.

After partaking of dinner, at 7.45 P.M.; the business of the meeting was proceeded with,

Moved by Dr. Trotter seconded by Dr. Broughton that Dr. Willmott take the chair.

CARRIED.

The Minutes of the last meeting were read by the Secretary and with two corrections, approved, by the meeting.

Dr. Trotter presented the President's address, he referred to the resignation of our President Dr. McDonagh who had evolved the idea upon which our Association was founded and of the good work he had done in the twenty years he was connected with it, how our work was being initiated; spoke of our Dental Executive and what he has accomplished, all over the Dominion and in the Dental Research Department. He spoke of the brush situation at St. Louis and

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

of our failure to make a deal with the L.D. Caulk people.

A printed copy of the Financial Report was placed in the hands of each member, the Secretary-Treasurer reading a separate report from the Auditor.

Dr. Thomson's report was divided into four parts, the Business Report, Educational Report, Memberships and Outline Lectures and Slides.

In the business report he announced that 1923 had been the successful year in the history of the C.O.P.A. and talked for a short time on our brushes and where they are made, he spoke of the co-operation of Mr. Hargreaves and Lyman Bros & Co., enabling us to give a special rate on both paste and brushes to school children.

The educational report referred to the Department of Information which is doing good work all over the Dominion, of the number of addresses given by the speaker to students, mens' clubs etc. this work being done through dental organizations.

Discussed the fact that our membership has been increased by 100 members which brings it up to 900.

He reported that our outline lectures and slides have been in constant use and talked on this. He referred to the increase in educational work accomplished, 427 addresses being given in less than two years. Also of the increase in the receipts in the last fifteen years from \$273.00 to \$14,000.00. The memberships jumped from 193 to 900 in three years, and of the great opportunities we have for service to dentistry and humanity.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

Discussion of Reports.

~~Moved by Dr. Semple seconded by Dr. Husband that the
different reports presented be adopted.~~

~~Carried.~~

Dr. Semple asked, if this new suggestion regarding the formation of the Dominion Dental Hygiene Council materializes what will happen to the C.O.P.A.?

Dr. Trotter replied that the Educational work done now by the C.O.P.A. would be carried on by the new council.

Dr. Webster suggested that the New Council be placed under the Department of Public Health at Ottawa.

Dr. Trotter replied that so far as we understand it, it is their intention to link up with this department.

Dr. Husband commended Dr. Thomson on his report.

Dr. McDonagh thanked the Members for the nice things said about him, referred to the proposed Dominion Dental Hygiene Council and said that if they did the work he was behind it heart and soul, but wanted to be absolutely sure on this point before we burnt our bridges behind us.

Dr. Grieve spoke on the Dominion Dental Hygiene Council.

Dr. McLean explained to the meeting how the Dominion Dental Hygiene Council came to be formed and what it stood for and what was expected of it.

Moved by Dr. McDonagh seconded by Dr. Webster that the President's Report (apart from the addition regarding the

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

Dominion Dental Hygiene Council) be passed.

CARRIED.

Dr. Irvine a visitor from Lindsay, addressed the meeting.

Moved by Dr. Gausby seconded by Dr. Eaton that the Financial Report be adopted.

CARRIED.

Moved by Dr. Semple seconded by Dr. Black that the Dental Executive's Report be Adopted.

CARRIED.

Moved by Dr. Webster seconded by Dr. Adams that we endorse the principle of The Dominion Dental Hygiene Council and the executive proceed to complete the arrangement; that the members of the C.O.P.A. be made known the final arrangement for their ratification ~~at~~ an adjourned meeting of the C.O.P.A.

CARRIED.

Moved by Dr. Broughton seconded by Dr. Gausby that the report of the Board, re the Budget By-law be endorsed.

CARRIED.

PRESENT:

Drs. Trotter, Eaton, Grieve, Gausby, Thomson, Broughton.

The Secretary reported the buying of four \$1000.00 Canadian National Railway Equipment Bonds, through the F.A. Daly Co., at \$3994.62.

Moved by Dr. Gausby seconded by Dr. Eaton that Dr. McDonagh's share for the interest on his loan be returned to him as this committee think it unfair, after him obliging us with the loan of this money, if he does not receive the regular bank interest.

CARRIED.

The following account was passed - The Office Specialty Co- \$20.00

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association held at the Mulberry Tea Rooms on June 19th 1924, at 12.30 O'clock.

PRESENT:

Drs. Trotter, Eaton, Grieve, Gausby, Thomson, Broughton.

Moved by Dr. Broughton seconded by Dr. Gausby, that Dr. Thomson and Dr. Trotter be a committee to interview Mr. Hargreaves and Mr. Challies and report back to us.

CARRIED.

Moved by Dr. Grieve seconded by Dr. Trotter that Dr. Thomson be authorized to spend the month of July in the Eastern Provinces interviewing dentists and attending conventions.

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association held at The Mulberry Tea Rooms on Thursday Sept 11th. 1924 at 12.30 O'clock.

PRESENT:

Drs. Trotter, Eaton, Grieve, Gausby, Thomson, Broughton and Dr. McDonagh on invitation.

The Secretary reported an interview he had had with Dr. Seccombe followed by an informal dinner at the Victoria Club with Dr. Seccombe, Dr. Trotter, Dr. Spaulding and himself. Dr. Seccombe's statement was that if the C.O.P.A. did its educational work through the Canadian Dental Hygiene Council giving its full support to the council, he Dr. Seccombe would give his full support - the C.O.P.A. to be free to advertise the fact, that their funds were being spent through the Council, to the profession and Dr. Harry Thomson to give his whole time or part time to the Council depending upon how much the C.O.P.A. could spare him.

Moved by Dr. Broughton seconded by Dr. Gausby that Dr. Thomson, Dr. Trotter, Dr. Grieve and Dr. McDonagh be a Committee to interview Dr. Seccombe re co operation between the Canadian Oral Prophylactic Association and the Canadian Dental Hygiene Council.

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association held at The Diet Kitchen on Friday October 10th. 1924 at 12.30 O'clock.

PRESENT:

Drs. Trotter, Eaton, Grieve, Gausby, Thomson, Broughton.

Moved by Dr. Gausby seconded by Dr. Grieve - that this Committee approve of the Following agreement drawn on Oct 10th. 1924, regarding the taking of a plebiscite.

CARRIED.

"We agree that a plebiscite shall be taken within six months or at a later date, by the mutual agreement of those interested
The question is to be as follows:

Do you consider it in the best interests of the Dental Profession that funds for public dental education and dental research be raised by means of royalties obtained from the sale of tooth brushes, tooth powders and tooth paste, such as has been carried on by the C.O.P.A. with Hatax products?

The details of the carrying out of this proposed plebiscite is to be arranged by a committee of four, two appointed from each body
The understanding shall be that those opposed to the principles of the C.O.P.A. shall withhold all opposition to the activities of the C.O.P.A. until such plebiscite is taken and that all parties do hereby agree to abide by the decision of the Profession and work harmoniously in the future.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

-2-

Along with the ballot, each side may enclose a statement embodying their views on the question at issue and there shall be no other propaganda published in any shape or form."

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association held at The Mulberry Tea Rooms on Monday October 13th 1924 at 12.30 O'clock.

PRESENT:

Drs. Trotter, Grieve, Thomson and Broughton.

Discussed the brush situation with regard to Mr. Hargreaves.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association, held at the Mulberry Tea Rooms, December 17th, 1924, at 6.30 P.M.

PRESENT:

Drs. Trotter, Eaton, Grieve, Gausby and Thomsen.

A letter was read from Mr. John Hargreaves asking for some special financial consideration to enable him to put on a special offer of Hutax Brushes.

Moved by Dr. Eaton seconded by Dr. Grieve that for four months commencing January 1st we make a donation for this special purpose at the rate of an allowance equal to 1 cent on each seal put on the two and three row brushes; and two cents on the child's and lingual. The price of all seals to remain constant at 3½ cents no allowance to be made only following the payments for seals bought during this period (January 1st to May 1st). This to be verbally communicated to Mr. Hargreaves by Dr. Thomsen.

CARRIED.

Dr. Thomsen was instructed to acknowledge receipt of Mr. Hargreaves' letter and the reply written by Dr. Trotter be placed on file as an answer to it.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of a Board Meeting of The Canadian Oral Prophylactic Association held at the Mulberry Tea Rooms on Monday January 12th 1925, at 6.30 P.M.

PRESENT:

Drs. Trotter, Eaton Thomson and Broughton.

Moved by Dr. Broughton seconded by Dr. Eaton, that the sum of three hundred dollars be appropriated to cover any expenses of special and general meetings for the year 1925 and any out of pocket expenses of the members for the year 1925.

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of an Annual Meeting of The Canadian Oral Prophylactic Association, held in the Graduates' Dining Room, Hart House, University of Toronto, on Tuesday January 20th, 1925, at the Hour of 6.30 O'clock in the evening.

PRESENT:

Drs. Willmott, Grieve, McGill, McDonagh, Coon, Eaton, Ellis, Bell, Day, C. G. Scott, Gunton, Bean, Reade, Clarkson, Campbell, Trotter, Gausby, Hume, Wunder, Husband, Adams, Baird, Jordon, Walton Ball, Nicholls, Roper, Webster, Paul, Sandersen, Mathieson, Thomson and Broughton.

After partaking of dinner the business of the meeting was proceeded with.

Moved by Dr. McDonagh seconded by Dr. Adams that Dr. Eaton take the chair.

CARRIED.

The minutes of the last Annual Meeting were read by the Secretary and approved by the meeting.

Dr. Trotter presented the President's address which is appended in full and was published in the Dental Journals.

A printed copy of the Financial Report was placed in the hands of each member the Secretary Treasurer reading a separate report from the Auditor.

Dr. Thomson presented the Dental Executive's Report which is also appended in full and which was published in the Dental Journals.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

-2-

A Research Report written by Miss Fraser was read by Dr. Thomson.

Dr. Thomson suggested to the Executive that he be relieved of all work with the Research Department.

Discussion of Reports.

Dr. McDonagh discussing the President's address - re discontinuing the Research work - pointed out that the Dental Research Committee of the University of Toronto carried on the Research work and not the Canadian Oral Prophylactic Association.

Dr. Trotter agreed with Dr. McDonagh but said that what he intended to convey in his report was that, probably the Canadian Oral Prophylactic Association would be wise to stop supplying funds to the Research Committee unless better arrangements could be made.

Dr. Grieve also referring to the Research work, spoke of the difficulty in carrying on this work in the Pathological Department, since the death of Professor McKenzie. He congratulated Dr. Thomson on his success in disposing of the stock of brushes to the Lambert Pharmacal Company.

Dr. Ellis - discussing the Research Department - said that Dr. Klotz had informed him that the Executive work of The Canadian Oral Prophylactic Association was done from the Pathological Building.

Dr. Thomson replied that certain advertising firms sent repeated letters to the President of the University complaining of the work done by our Committee, thus giving the head of the Pathological Department that impression.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

Dr. McDonagh suggested that there be no report from the Research Committee as they are not appointed by The Canadian Oral Prophylactic Association, but by the Board of Governors of the University of Toronto.

Dr. Webster congratulated the President and Executive on the splendid reports. He pointed out that we had accomplished the wonderful result of forcing other manufacturers to make smaller tooth brushes and tooth paste without sugar, also we had ~~lain~~ ^{laid} the foundation ~~foundation~~ of Dental Research in the University. Speaking as Secretary of The Research Committee he suggested that we just wait awhile until several matters now unsettled be cleared up and we will then better know how best to deal with the question.

Dr. Day asked if the model of our brush could be improved on also if we had ever considered the Rubber set brush.

Dr. Thomson answering said that the rubber set brush was not satisfactory, re changing the design of our brush he pointed out that the other firms copying ours shows that it must be the best.

Dr. Mathieson suggested a Hutaz callendar.

Moved by Dr. Grieve seconded by Dr. Webster that the reports be received and adopted.

CARRIED.

Business.

Dr. Reade asked more information regarding the Canadian Dental Hygiene Council and its relations with the different Dental organizations.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

-3-

This was answered by Dr. Trotter.

Dr. Ellis suggested that every effort be made to retain the valuable services of Miss Fraser in the Dental Research Department.

Moved by Dr. Grieve seconded by Dr. Webster that this Association empower the Executive to place at the disposal of the Canadian Dental Hygiene Council the services of our Dental Executive until such time as the Council is able to function satisfactorily to both this Association and the Council.

CARRIED.

Moved by Dr. McDonagh seconded by Dr. Grieve that the report of the Board re the Budget By-law be endorsed.

CARRIED.

ELECTION.

Nominations for Board - Dr. Nicholls nominated Drs. Trotter, Eaton, Grieve, Gausby and Broughton,

Dr. Day nominated Dr. Bell and Dr. Nicholls.

Dr. Eaton wished his name withdrawn owing to press of work on other Committees.

The Scrutineers reported Drs. Trotter, Grieve, Gausby, Day and Broughton, elected to the Board.

Moved by Dr. Webster seconded by Dr. Willmott that the Secretary cast a ballot for the present Educational Committee ie: Drs. MacLachlan, Ellis, Irvine, Semple, Bell, Adams, Woollatt.

CARRIED.

Moved by Dr. Grieve seconded by Dr. Broughton that we adjourn.

CARRIED.

W. Cecil Trotter Pres

After calling upon Dr. Grieve to take the chair, Dr. Trotter presented the President's address, which is appended in full and was published in the Dental Journals.

A printed copy of the Financial Report was placed in the hands of each member the Secretary Treasurer reading a separate report from the Auditor.

Dr. Thomson presented the Dental Executive's Report which is also appended in full and which was published in the Dental Journals.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

-2-

Discussion:

Dr. Webster related a history of the early trials encountered by the Canadian Oral Prophylactic Association in their endeavour to make their ideals a reality - praising Dr. McDonagh for this vision in first conceiving the idea of the C.C.P.A.

Dr. McDonagh responded to the demands of the meeting for a few words and told us how the idea first came to him and how he came to discover a tooth paste containing no sugar or simple syrup.

Dr. Webster asked what the Executive hoped to accomplish through the ~~Oral~~ ^{Dental} ~~Hygiene~~ ^{Council} Committee, which started a discussion on our relations with the Oral Hygiene Committee.

Moved by Dr. Grieve seconded by Dr. Day that we continue to place at the disposal of the Canadian Dental Hygiene Council, the services of Dr. Harry S. Thomson, for the coming year for the purpose of promoting their educational and Oral Health programmes.

CARRIED.

Moved by Dr. Trotter seconded by Dr. Day that the Reports all be adopted.

CARRIED.

Moved by Dr. Broughton seconded by Dr. Day that the report of the Executive re the Budget By-law be endorsed.

CARRIED.

Moved by Dr. Grieve seconded by Dr. Webster that in the occasion of an educational committee being necessary that it be appointed by the Board.

CARRIED.

ORIGINAL COMMUNICATIONS

President's Address, Annual Meeting of the Canadian Oral Prophylactic Association, 1925

W. C. TROTTER, B.A., D.D.S., L.D.S., TORONTO

Gentlemen:—Again it is my privilege and pleasure to renew the pleasant associations which have prevailed among many of us for more than twenty-two years, and for the third time it is my pleasant duty to present to you the President's annual address. Last year I explained the organizing of the C.D.H.C. and the obtaining of a Dominion Charter and I also detailed the unavailing efforts of the Council to obtain a money grant from the Dominion Government.

This past year has seen the continuation of these efforts on a more comprehensive scale. The services of our dental executive, Dr. Harry S. Thomson, were loaned to the C.D.H.C. for this work and he made an extensive trip embracing the more important cities of Quebec, Ontario, Manitoba, Saskatchewan, Alberta and British Columbia in an effort to enlist the active sympathy and support of the dentists in the work of the C.D.H.C. In this way decided personal pressure was brought to bear upon the various cabinet ministers at Ottawa, and several of them assured us that there was every probability that provision would be made in the estimates for a money grant to the Council, but alas when the Supplementary estimates were finally presented to the House the name of the C.D.H.C. was conspicuous by its absence. However during the visit of Dr. Thomson to the various cities of Canada he had the opportunity of co-operating with the dentists at the various points visited, and by means of lectures and addresses to service clubs, women's clubs, schools, etc., he has been able to greatly advance the work of public dental education in Canada. Apart from these results I do not look upon these efforts as waste of either time or money because the sympathy and co-operation of many prominent men both within the ranks of the profession and of the laity have been permanently enlisted on behalf of Public Oral Hygiene work throughout the Dominion of Canada.

Since the House at Ottawa dissolved last summer the C.D.H.C. has considered the time inopportune for making any further appeals to Ottawa for financial help until a stable government is established. In fact the opinion is rapidly gaining ground that it would be wiser to ask for the appointment of a Dominion Dental Health Officer than to ask for money. It has also been thought unwise to solicit subscriptions from the public until we have evolved some definite programme of public work which would strongly appeal to the public mind as being urgently necessary.

The examination and care of the mouths of immigrants arriving in Canada has been suggested as an important work along this line which might appeal to the Canadian public as being worthy of their support. It will, however, be first of all necessary to gather together statistics and proof to show that this is a worthy object and that there is a genuine need for the work.

The C.D.H.C. is now taking steps to secure this information and hopes to have the co-operation of our dental executive.

If Dr. Thomson's services are still to be generously put at the disposal of the C.D.H.C. I may say that in future a committee consisting of the chairman and secretary of the executive, together with another member of the executive (in this case Dr. R. J. Reade), will consult with Dr. Thomson and direct and lay out his duties and work.

At present I cannot see how the C.D.H.C. is going to be in a position to engage the full time services of a permanent Field Officer for several months to come. Of course if the Council is able to persuade the Dominion government to appoint a permanent Dominion Dental Health Officer they would urge the appointment of Dr. Harry S. Thomson to that position.

So much in explanation of our relations with the C.D.H.C., and now a few remarks about our financial position, which is largely explained by the secretary-treasurer's report and the report of our dental executive. Owing to a combination of circumstances the revenue from the sale of brushes has fallen off so badly that our statement shows a loss for the year. The keen competition in the brush market, together with Mr. Hargreaves' unfortunate illness and absence from business, explains this situation. An agreement with one of the oldest and most reliable brush manufacturing concerns in Canada is practically completed whereby our brushes in future will be made right here in Canada by Canadian workmen. The firm I have reference to is the Stevens-Hepner Co., of Port Elgin, Ontario, which has a large factory well equipped with the very latest machinery for turning out tooth brushes of a quality second to none. The members of your executive have had the privilege of meeting Mr. Stevens personally and I feel sure I voice the opinion of all when I say that he has inspired us all with the utmost respect and confidence. We feel that it is his ambition to turn out a strictly high grade brush which will satisfy us and be a credit to his firm. Under these conditions we hope soon to make up the present falling off in the royalties on brushes.

The sales of Hutax paste have been well maintained, though our revenue is somewhat lower owing to the necessity of reducing the royalties in order to avoid increasing the price to the druggist.

In view of the brighter outlook for general business in Canada and the improved arrangement for getting brushes and selling them I look forward to a more favorable financial statement at the close of this year.

Our Dental Executive will explain more in detail the changes being made in our agencies for the brushes.

Your executive committee has had several very puzzling problems to solve during the year, and I want to thank everyone for the loyal support given me at all times.

I again appeal to all members of the dental profession and more particularly to the nine hundred who are members of this Association to do all in their power to promote the sale of Hutax Products and thereby assist in the promotion of Oral Hygiene Work throughout the Dominion.

Report of the Dental Executive of the Canadian Oral Prophylactic Association, 1925

HARRY S. THOMSON, D.M.D.

Mr. President and Gentlemen:

I beg leave to present to you a report of the activities of the Canadian Oral Prophylactic Association.

In presenting a report of the year's work of the Canadian Oral Prophylactic Association one requires to be not only your Dental Executive, but an historian, and something of a prophet, for the activities of our Association cannot be fully recorded in the record of work done or things accomplished in any one year. Such a report should include a resumé of the work accomplished during the 22 years of its history; of the present work, finances and general activities; and outline its future work and opportunities.

Our History—This is the 22nd Annual Report of the Canadian Oral Prophylactic Association. Twenty-one years of sturdy, healthy growth, each individual year of which has seen an increased growth over the former—a growth towards one end only, the ideal which inspired the Canadian Oral Prophylactic Association:—That is, to restore to the Profession its own duties and responsibilities in recommending to patients what drugs and cleaning agents should be used; what means should be employed to take care of the mouth and thus providing for the public through the dentist a safer and saner prophylaxis.

The C. O. P. A. has grown from a small committee in 1905 to an organization of 900 members—the most outstanding dentists in Canada.

Having an Ideal and Trying to Make it Practicable—Let us consider conditions as they existed twenty years ago. There were no dental clinics in public schools; there were no industrial or public dental clinics; there were only one or two Provincial hygiene committees. The words "Oral Sepsis" had never been used previously to the year 1900, when they were used for the first time by Dr. Hunter and it was not until eleven years later that the same Dr. Hunter put an entirely different aspect on our Oral Hygiene efforts, by telling us of systemic infections and lowered vitality caused by diseased teeth. Into such a world the Canadian Oral Prophylactic Association was formed by men of unusual vision.

These men—particularly during the first few years—gave very freely of their time and scientific knowledge to provide a means and financial

help whereby an organized plan of Oral Hygiene might be carried out. Night after night and meeting after meeting was necessary; time was given from their work and their play, with but one end in view—to carry the story of Oral Hygiene into every home in Canada, from coast to coast. There was no financial remuneration. The organization was so arranged that no member could receive one cent from it, but they have surely had and still are having a splendid recompense, for I think it can be safely said that Canada is ahead of all other countries in its organized work on Oral Hygiene lines. There is now an active Oral Hygiene Committee in every Province in the Dominion and also one connected with the Dental Society of every large city. There are dental clinics in the schools of all of our large cities. Many dentists are actively engaged in giving lectures on Oral Hygiene to schools, clubs and public meetings, and in the Province of Ontario we have a Director of Dental Services in the Provincial Department of Health, and other provinces are about ready to fall in line and make the same appointment.

In all the work that has brought about this great progress during the last twenty-two years the C. O. P. A. has had a large part. Many dentists have individually given unselfishly of their time to promote this great work and we, as an organization, can look back over these twenty-two years with considerable justifiable pride, knowing that the C. O. P. A. has materially helped many of these present day organizations and by its early entrance into this work and its extensive educational programme has been, perhaps, by far the greatest single factor in the growth that has taken place in this great health movement.

Our Present—Great as has been our success in the past, we know that our present could be very materially advanced through a deeper interest in our aims by a larger number of Canadian dentists. Our opportunities are unlimited, but our efforts are limited by the extent of our available funds, attained as royalties on Hutax products.

A study of these products and an increased knowledge of their merit would lead to a greater demand for them from our patients, which means not only more funds to carry on the work of the Association, but to the patient the products would provide a safe, scientific and satisfactory method of mouth cleansing.

The Future—The future with its many Oral Hygiene and Health organizations means perhaps a different programme of work for the Canadian Oral Prophylactic Association. The aim of the Association has always been to promote or assist in any movement until such time as that movement is capable of carrying on for itself. That time has arrived in many of the activities formerly carried on by the C.O.P.A., but new work is constantly opening up. Perhaps the most important aim of Canadian dentistry to-day is to promote and assist in securing the appointment of a Director of Dental Services in the Department of Health in every province. When that is done we can safely leave to these the responsibility of the work in each Province, but until that has been accomplished we try to assist these provinces with their various programmes.

Our Products—During the past year the formula of Hutax Tooth Paste has remained constant, but at the present time we are considering a slight change, due to newer knowledge in antiseptics. This change will likely necessitate a slight change in flavoring, and will not only improve the effectiveness of the paste, but will improve its palatability. Considerable time is spent in checking up all articles written and any scientific data

on the subject of dentifrices: the best of these are incorporated into our own Hutax, which necessitates frequent changes in the formula; but more than that, it assures the user and the dentist of the high standard of the product. The very fact that the sales of Hutax paste keep steadily increasing from year to year in the face of such keen competition surely indicates that we have succeeded in providing a dentifrice that is efficient, safe, pleasing and scientifically compounded. The sales of Hutax Paste for 1925 have kept pace with those of 1924, which as you remember was the biggest year in our history. An adjustment in the price of our royalties was necessary on account of the increased cost of some of the ingredients. This has reduced our cash receipts for this year, but we considered this action was more justified, rather than increasing the price to the druggist.

Hutax Tooth Brushes—To have Hutax Tooth Brushes manufactured in Canada has been the constant aim of your executive, and I am sure that you are very glad to know that this has at last been accomplished. Many attempts have been made during the last few years to bring this about, but up to now without success. Some few years ago we thought we had solved the problem and went so far as to then place an order for 50 gross of brushes with a Canadian brush manufacturer, but the result was unsatisfactory, both from a financial and quality-of-the-product standpoint. There are very few manufacturers of tooth brushes in Canada—perhaps not more than two up to 1924, so under these conditions we had to depend upon England and Japan for our supply. This has meant long delays due to the length of time required to carry mail and transportation. It also hindered a satisfactory check-up on quality, as we were so far away from the base of manufacture. We felt too that the Canadian public would much rather use brushes made by clean Canadian workmen, which also means that the money representing the cost of manufacture would be spent in Canada. During the early part of 1925 we entered into negotiations with the firm of Stevens-Hepner Co., brush manufacturers, Port Elgin, Ont., with the end in view of having them make for us Hutax brushes, and I am glad the President has been able to announce tonight that we have entered into an agreement with the firm to manufacture and sell them for us. This firm has been established for 34 years and to-day is one of the most outstanding manufacturing concerns in Canada. Their plant comprises large, modern, well-lighted and ventilated buildings and is equipped with the most modern brush making machinery available. Its employees comprise about 1/12 of the entire population of the town of Port Elgin, Ontario, and are of a superior type of Canadian men and women. The quality of the products manufactured by this concern is of the highest and, as was told me by a member of one of the largest retail concerns in Canada, "the brushes made by Stevens-Hepner Co. rank with those made by the best English makers, namely Kent & Sons." This statement is well proven by the interest manifested in this Canadian firm's display and the orders received for their goods at the Wembley Exhibition in England during 1924-25 by Mr. Stevens, the head of the firm.

It augurs well for the future success of Hutax tooth brushes that the C. O. P. A. has linked up with a man of Mr. Stevens' standing and the splendid manufacturing concern which he represents.

The design of the brush will remain exactly the same as it has during the last twenty years.

During the year 1925 the revenue received from Hutax brushes has fallen off. This was chiefly due to the difficulties through which our selling

agent, Mr. John Hargreaves, has been passing. Added to this the general business depression, and the keen competition in the tooth brush field, with enormous sums of money spent in spectacular advertising and free goods distribution of our competitors, forced Mr. Hargreaves, in October 1925, into liquidation. Although this means a big financial loss to the C. O. P. A., as well as to the other creditors, the Executive takes this opportunity of paying high tribute to Mr. Hargreaves, from both a business and a personal standpoint, to his honesty and the high ethical manner in which he has for so many years conducted his business and for us the Hutax Brush Agency.

School Brushes and Paste—During the year we have been able to supply many school children with our special-for-school-children's brush and special-for-school-children's Tooth Paste. These are sold in a special package to school boards or school nurses only, and afford a splendid, practical way of emphasizing the teaching of Oral Hygiene and provides the machinery to carry it on. The brush is provided for 15c and the paste \$1.20 a dozen plus transportation charges.

Educational Work—At the annual meeting, 1924, it was decided that our Association co-operate with the Canadian Dental Hygiene Council and that all educational work formerly carried on by the C. O. P. A. would in the future be carried on by the C. D. H. C., the Canadian Oral Prophylactic Association providing financial assistance for this purpose. This was done to bring about a more complete co-operation of dentists and laymen and make for better unity in dental educational work.

This has resulted only in partial success. Possibly a longer time is required for this combination to attain the success which we had expected.

Beginning early in January your Dental Executive, under the auspices of the C. D. H. C., undertook a trans-Canada trip to acquaint dentists with the aims and objects of the Council; to try to enlist the support of dentists and citizens in general for the Council and for its request from the Federal Government for a grant of \$10,000 a year for five years to assist in carrying on Dental Health work. At the same time general dental educational work was carried on in the cities visited, extending from two to five days, under the auspices of the Provincial and local societies. This trip from an educational point of view was a splendid success, but not politically for we did not succeed in getting our grant. In all, some 128 meetings were held. Addresses were given to Dental societies, clubs and schools in the following cities: Quebec, Montreal, Ottawa, Port Arthur, Fort William, Winnipeg, Regina, Moose Jaw, Brandon, Saskatoon, Edmonton, Calgary, Kamloops, Vancouver, Victoria, Nelson, Lethbridge, Medicine Hat, Swift Current. Addresses were given also to clubs and schools in various cities throughout Canada. Outline lectures and lantern slides have been sent out in answer to many requests and general information on many subjects of importance has been provided. Educational material is now being provided in Ontario by Dr. Conboy, Director of Dental Services of the Provincial Department of Health, and again we express the hope that it will not be long before it will be provided for in a similar manner in every province. Until such time, however, we will gladly furnish this same service on application.

Dental Research—The dental research work carried on during the last five years in the University of Toronto and financed by your Association was discontinued June 1st, 1925. This was chiefly due to the fact that

the Royal College of Dental Surgeons was becoming a faculty of Dentistry in the University of Toronto, and such work in the future would be carried on under that administration.

The financial report for the year 1925 has been presented to you, and though it presents a disappointing balance on the wrong side, I do not think we should be discouraged. We have passed through several years of unusual business depression—several years of very keen competition with manufacturers of tooth brushes and dentifrices, and also some years of unavoidable difficulties with manufacture and sales agencies. We are hopeful that many of these difficulties are definitely disappearing. Our Association is not in debt, the business depression appears to be lifting, and the correct design of our brush and the superiority of our products is gradually righting the difficulty of competition. Now, with the manufacturing problem solved and a Canadian made brush available, I believe we are in a better position to progress successfully and be of service than we have been in many years.

Greater prosperity will bring greater ability to raise funds in an ethical manner to carry on dental health educational work under our own auspices or through the auspices of the Canadian Dental Hygiene Council or some kindred organization. This is fulfilling the dreams that those few dentists had who twenty-two years ago organized the C. O. P. A. and through all these years, in spite of difficulties and some criticism did not become discouraged.

Twenty-two years of growth—twenty-two years of splendid service—twenty-two years of maintaining to a high standard an organization unequalled in any part of the world, an organization which men have carried on at personal sacrifice, an undertaking based upon an ideal, and have made it practicable, making money—not for themselves, but sharing it, using it to the best of their knowledge for the good of the entire profession, a concrete realization of their dreams.

OUR DREAMS

(From Harper's Magazine)

Do not deride them, or do not deny,
And tell me not the things you have done
But tell me your dreams; have you held thereby?
To the web that was with your destiny spun?
Lived with it ever, through shadow and sun.
Does the vision remain, no ill shall befall;
Lost, and there's nothing worth while to be won.
For we are our dreams and our dreams are all.

—Harry S. Thomson, D.M.D., *Dental Executive, C.O.P.A.*

Annual Report of Oral Hygiene Committee Academy of Dentistry, Toronto

ARTHUR DAY, D.D.S.

The Oral Hygiene Committee commenced its work about the middle of November and has held to date sixteen evening meetings. Much time has been put in by the individual members in approaching different organizations with a view of getting permission to give oral health talks to those under their supervision. We are pleased to report, however, that the public seem not only willing, but anxious to receive the education, and we can assure next year's committee that they will find the work anything but discouraging.

The following were the activities during the term:—

Dental Clinic in the Sick Children's Hospital. A project which was started by last year's committee and was completed this year with Dr. J. A. Bothwell as chief of staff.

That the subject material for lectures should be standard and correct we early in the year consulted with Dean Webster and Drs. Conboy and Harry Thomson, who prepared it for us.

Recognizing the scarcity of public speakers among the profession for oral hygiene addresses, we formed a class of fifteen to prepare themselves for the work, under the chairmanship of Dr. Harry Thomson. This class has held 14 evening meetings. After studying up the subject, Prof. Grieves, professor public speaking, Victoria College, was engaged to give a course of five evenings in teaching the class public speaking. The Oral Hygiene Committee is paying part of Prof. Grieves' fee, the balance being paid by members of the class.

Letters were sent to 665 manufacturing firms, asking permission to have our speakers give noon hour talks. So far we have had about 50 favorable replies, and they are still coming in. While a number of factories, on account of certain conditions, such as bakeries, cannot get their employees together, still we were able to report that we have had but one straight refusal. In many cases the firms have offered 15 minutes extension on the noon-hour, to give our speakers sufficient time. It is really surprising how anxious some of the large employers of labor are to have these addresses. The factory talks are being given now and will be completed by the end of next week.

Lectures were given to ten boarding schools as follows:

Moulton, Glen Maur, Branksom, St. Michael's, Bishop Strachan, Upper Canada, Loretto Abbey, Havergal, Guelph Women's College, St. Andrew's Central Technical, with the Women's City Club yet to be delivered on April 6th. Dr. Thomson kindly gave the addresses to the colleges, they were all lantern talks. Some schools had two,—one for juniors and one for seniors. We have since heard from the principals of these institutions saying how much they value this work and we have no doubt but that all of them will be only too anxious to have the lectures repeated next year.

ORIGINAL COMMUNICATIONS

President's Address, Annual Meeting of the C. O. P. A., Jan. 31st, 1927

W. C. TROTTER, B.A., D.D.S.

Gentlemen:—It has been my privilege to act as President of your Association for another year. The thorough co-operation I have received from every member of the executive and from the Dental Executive has made the work a pleasure. Our Association suffered an irreparable loss last summer when our worthy and much esteemed Vice-President, the late Dr. Horace E. Eaton, was unexpectedly called to his Rest. He had been associated with this organization from the beginning and his ardent enthusiasm and loyalty were a great factor in its success and popularity. As you all know, he was an indefatigable worker for any cause he associated himself with and he certainly gave this Association the full benefit of his mature judgment and experience at all times. We all sadly miss his wise counsel and lovable personality. Dr. Eaton will be missed not only by the C.O.P.A., the C.D.H.C., the Ontario Dental Association and the whole profession of dentistry, but by every organization which he took an interest in whether of Church or of State. Notwithstanding the fact that it has taken the whole year for the Stevens Hepner Co. of Port Elgin to get their machinery and equipment ready to turn out Hutax Brushes according to quantity and specifications agreed upon, we have managed to wind up our financial year in a much improved position from that of last year, thanks to the successful efforts put forth by Mr. Hargreaves and our

Dental Executive to dispose of the large stock of imported tooth brushes held by us at the close of last year. By the judicious handling of these brushes we have been able to keep the trade supplied with Hutax Brushes while awaiting the advent of our Canadian-made brush. The royalties from the brushes sold during the year have earned us a nice little surplus which puts our financial statement in much better shape than we had dared to anticipate a year ago. Now that the Stevens Hepner Co. through their distributing agents John Huston & Co., are going to look after the sale of brushes throughout the Dominion the sale of brushes should steadily increase and likewise our revenue. We are satisfied that the quality of the new Made-in-Canada brush is superior to anything we have yet had and as far as we know is superior to anything else on the market, so optimism is our keynote. Our tooth paste has had to contend with such keen advertising competition that we feel rather proud to think that it has been able to practically hold its own. As most of the advertised advantages of many of these preparations are more imaginary than real and as in some cases we know them to be based on false premises, I feel that the sales of Hutax Paste will continue to hold its own and in all probability slowly improve. With the distribution of both paste and brushes taken care of by the manufacturers of same, the business responsibilities of this Association will be much lessened and

Dominion Dental Journal

Vol. XXXIX

TORONTO, FEBRUARY, 1927

No. 2

DR. E. M. DOYLE, CALGARY

President Dental Society of Western Canada for 1927, and under whose direction the meeting in Edmonton in May 25, 26, 27, 1927, is being brought about.

the time of our dental executive made more available for educational work.

As the Canadian Dental Hygiene Council undertook to look after and organize the oral hygiene work of the Dominion and as we agreed to loan them the services of our dental executive to help them in that work, this practically means that most of his time will now be available for the use of the Council. Up to the present the Council has not made use of all of Dr. Thomson's time, mostly on account of lack of funds to pay his expenses while working in other Provinces. Fortunately for us there has been enough of his time at our disposal to enable him to wind up our stock of imported brushes, to get our finances re-established and to complete the arrangements for the manufacture and distribution of the new Made-in-Canada Hutax Brush.

Though all of Dr. Thomson's time has not been required by the Council nevertheless his services have been used with splendid results.

As Chairman of the Executive Committee of the C.D.H.C., I want to assure you that though at times I have been greatly discouraged by the slow progress made by the Council, yet at the present time I am feeling

much more optimistic about the outlook. There now seems to be more unanimity of opinion in regard to the programme of work we should carry on and the manner in which it should be done. It has been decided to make a definite and decided effort to raise funds for the Council and also to again enlist the sympathy and assistance of the Federal Government now that they are more permanently established at Ottawa. The executive committee is now organized with Dr. Grant as Secretary, Dr. Thomson as Field Officer, myself as Chairman, and an active sub-committee consisting of Col. Nasmith, Dr. Grant and myself, to organize, finance and manage the affairs of the Council and to arrange work for Dr. Thomson. This sub-committee is to report to the full Executive from time to time. This is the first time that a really workable plan to manage the affairs of the Council has been agreed upon, so I have great hopes that it will soon bear fruit, in fact if I cannot report more satisfactory progress by this time next year I shall not expect the members of this Association to have any further patience either with me or the C.D.H.C.

Report of Dental Executive

Mr. President and Gentlemen:

I beg leave to present to you a report of the activities of the Canadian Oral Prophylactic Association for the year 1926.

It is well, I think, that once a year, individuals and organizations should climb to the hilltop of their history and past achievements and review just how they have climbed, their methods and progress and the effect on others. From these same heights we are able to look forward and make

a survey for the future, in anticipation of possible work to be done, both in the immediate present and in the days to come.

To-night, as an organization, we are privileged to look back on twenty-two years of splendid history. Let us study for a moment what kind of a trail we have left. Have we always cleared away the underbrush in order to leave a clear path? Have we dislodged stepping stones on our upward climb, or did we make them even

more secure—so that others could follow? Perhaps in some instances, we have climbed Alpine-like, with a rope around our waists so that we might lend assistance to others.

Twenty-two years ago the view presented from the hilltop was very little but barrenness and desert places as far as Oral Hygiene work was concerned, but what a difference now! Looking out over the ground of the future, what a change we see there. We find settlements all over the landscape, provincial oral hygiene committees in every province, oral hygiene committees in almost every city, public school clinics in all the most important cities and towns, and in the Province of Ontario a Director of Dental Health in the Provincial Department of Health. So our plans for the future must be different to what they were twenty-two years ago, but with the same end in view—that of providing the means for carrying on Oral Hygiene educational work—first to the Dentist and through him to the community. This has been the ideal of the Canadian Oral Prophylactic Association, and assisted by the efforts of many individual dentists it has carried throughout the Dominion of Canada a story of the importance of the principles of Oral Hygiene.

In the future we see a constantly growing work to be accomplished and this means the need for greater financial assistance; greater financial assistance from our Association means that we must have increased revenue, and to provide this increased revenue, we would ask every Dentist in Canada to support our association and its products.

In the past twenty-two years our Association has grown from year to year fulfilling the dual purpose for which it was formed by men of broad vision, namely, to provide mouth preparations, Hutax Dentifrice and Hu-

tax Tooth Brushes, that are dependable, scientific and efficient, and through these products, by means of money received from royalties, to provide the funds or financial assistance to promote or carry on Oral Hygiene work in the Dominion of Canada. The growth of this work is best evidenced by our financial report which you will receive to-night. From a revenue of less than \$100 a year twenty-two years ago, it has grown to such proportions during these latter years that thousands of dollars have been provided each year for educational work. Revenue for 1926 is eleven thousand.

We would ask you to study very thoroughly the history of the Canadian Oral Prophylactic Association covering these twenty-two years that you may learn how it has been possible for a body of professional men to promote and carry on an organization based solely on an ideal and to make that ideal practicable—thus producing an ethical business organization that has grown to such proportions that to-day it stands out unique and alone—an organization carried on solely that others might be served. This, I say, is "Service" of the highest type and implies the broadest measure.

The study of the history of the Canadian Oral Prophylactic Association brings you to a study of its products, Hutax Tooth Paste and Hutax Tooth Brushes. A constant endeavor has been made to keep both these up to the highest standard, from both a scientific and a manufacturing standpoint. The success of that endeavor has been proven by the quantities of each that have been sold, without any advertising or sampling or any of the various means of sales promotion usually employed by the manufacturers of such products. The constant desideratum of the Canadian Oral Prophylactic Association has been to inspire the Dentist with confidence in

the reliability of its products and to provide the Profession with a safe and efficient mechanical means of promoting Oral Hygiene.

HUTAX BRUSHES

During the year 1926 Hutax Brushes have gone through the process of reorganization, by a change in manufacturing and sales agents. You will remember that at the last Annual Meeting it was announced that a contract had been entered into with the Stevens-Hepner Co., Port Elgin, Ont., to take over the manufacture and sale of Hutax Tooth Brushes. As was explained at that time the object was to provide a Made-in-Canada Hutax. For a long time this has been the aim of this Association. It was thought and latterly has been proven that this firm which had been making high-grade toilet brushes for thirty-one years was qualified to manufacture and market a brush that fulfilled every qualification necessary in Hutax. This it has done, and to-day there is on the market a Made-in-Canada Hutax, better looking, better manufactured and superior in every way to any Hutax Tooth Brush heretofore sent out. Though the contract was signed January 10th, 1926, it was not until January 1st, 1927, that the Stevens-Hepner Co. were manufacturing and ready with a full line of brushes and on and from that date this firm has taken over the entire distribution of Hutax for the whole of Canada.

During the year 1926 the brush business has been carried on by the Hutax Brush Company, with Mr. John Hargreaves as Manager. During the year the stock of imported brushes has been disposed of and the Trade kept supplied. Meanwhile, time and opportunity were given to try out the new Canadian products.

And now the new Made-in-Canada Hutax Tooth Brush is on the market, and the Association is proud of it. Letters have been received from den-

tists and druggists stating that it is much superior to any previous brush and conforms to all the exacting requirements of the Huta standard.

The Brush, as has been stated, is made by the Stevens-Hepner Co., and is marketed to the trade by John Huston Co., 468 King St. West, Toronto. With the quality of the brush assured and made in Canada and the reliability of its manufacturers and the high standing and aggressiveness of the sales agents, the Association can with every sincerity ask you to endorse and prescribe Hutax Tooth Brushes. We are convinced that your patients will thus receive the best that can be provided for the mechanical cleansing of the mouth and you will then be assisting in promoting the work of the Canadian Oral Prophylactic Association in providing funds to carry on Oral Hygiene work.

During the year 1926, the royalties received from Hutax Brushes were greatly increased over 1925, and a much greater increase is expected for 1927.

SCHOOL BRUSHES

During the year 1926 the Association provided many thousands of "Special For School Children Hutax Brushes." This is a special brush that is supplied only to school teachers, school boards, and school nurses, at less than one-third the regular price as a part of the educational work of the Canadian Oral Prophylactic Association. The good accomplished in this way makes the scheme more than worth while, for the interest of the teacher, as well as that of the school board is aroused, and instructions are given to the pupils on how to keep the mouth clean, with some definite means provided to assist them in their efforts.

HUTAX TOOTH PASTE

To promote an ideal dentifrice was one of the aims of the Canadian Oral Prophylactic Association. In an endeavor to keep Hutax Tooth Paste up

to the highest requirements of a dentifrice, we are constantly following the research reports of the different scientific men engaged in this work, so any desirable change can be made in the formula. The Association has long maintained that an ideal dentifrice must be a harmless, safe and efficient cleansing agent. Hutax paste is bland, free from grit, promotes no strong chemical action in the mouth, is neutral in reaction to litmus, is not medicated, but is a safe, pleasing, antiseptic mouth cleansing agent. The compounding is correctly carried out by Lyman Bros. Limited, Front St., Toronto, and this firm's reputation assures the reliability of the product.

During the last few years we have seen very extensive advertising campaigns carried on to promote the sale of "Strong Acid Tooth Pastes," "Mildly Acid Tooth Pastes," "Fruit Acid Tooth Pastes," "Strongly Alkaline Tooth Pastes," and very many "Medicated Tooth Pastes." In the opinion of your Executive, all of these are opposed to the best interests of Oral Hygiene. Many firms have spent enormous sums of money advertising these various pastes and in distributing samples. On the contrary, Hutax paste is not advertised to the public at all, nor are any samples distributed. It is sold only on the prescription and recommendation of dentists. Nevertheless, despite this keen competition, the sales have remained constant during the last few years with but a slight falling off during 1926.

With this knowledge of the history of the products of the Canadian Oral Prophylactic Association, with faith in its founders and the ideals they have maintained for it, and with confidence that the profits made from royalties will be used to promote Oral Hygiene work in your Community and throughout the Dominion, we ask you to prescribe and recommend Hutax Tooth Paste.

MADE IN CANADA

Hutax products, both brushes and tooth paste, are made in Canada by clean Canadian workmen, under sanitary conditions in ideal surroundings. Every cent of money made on them is retained in Canada, and not one cent of profit derived from royalties is distributed to shareholders or directors.

EDUCATIONAL

The Educational work formerly carried on by the Canadian Oral Prophylactic Association was by arrangement with the Canadian Dental Hygiene Council to be carried on by that Council. For this purpose the Canadian Oral Prophylactic Association has turned over to the Canadian Dental Hygiene Council, without salary, the services of its Dental Executive. During the year 1926 he has carried on many activities under the auspices of the Canadian Dental Hygiene Council, working under the direction of various local and provincial Oral Hygiene committees.

For detailed reports of these I refer you to reports of the Canadian Dental Hygiene Council, Toronto Academy of Dentistry, etc.

CONVENTIONS

During the past year your Dental Executive attended three provincial dental society meetings and the Canadian Dental Association meeting at Halifax. At each of these the aims of our organization were brought to the attention of those present and samples of Hutax products were distributed.

OUR OUTLOOK

The outlook for the future is brighter than for many years. Our finances are in better condition; this year's balance sheet shows a healthy surplus; our tangible assets have about doubled since last year. Our brush business is on a sounder and more satisfactory basis; Hutax Tooth Paste is maintaining its place. So with the improvement in general bus-

of Mr. Stevens that we accept a 1% royalty on all brushes exported by
him to South Africa.

CARRIED.

The meeting adjourned.

DENTAL EXECUTIVE'S REPORT - MAY 1st, 1929.

C. O. P. A.

During the past year your Dental Executive has been earnestly endeavoring to form some new affiliation in a business way for Hutax Tooth Paste, in order that we might bring our product more up to date and provide some more satisfactory method of publicity and merchandising for it. To this end, you are already familiar with the negotiations that we carried on with Soaps Perfume Co. Ltd., during 1928. At the beginning of 1929, I entered into negotiations with the E. R. Squibb Co., through Mr. Huston, Vice-President of the Canadian Company. After a very satisfactory interview with Mr. Huston, he arranged a conference with me in New York with the President of the Canadian Company and the General Sales Manager, Mr. Keim. At all of these conferences, I was able to persuade those concerns that there was ~~an~~ benefit to be realized by both of us through an affiliation between our Association and E. R. Squibb Co.

The matter was gone into very fully by the Squibb organization, and on my return from the West in April, Mr. Huston expressed a desire that I should have a conference in New York with their Board of Directors and later with Mr. Weicker, President and Managing Director. This conference took place last week, April 22nd to 27th. During this time I had many meetings with different officials and felt that splendid progress was being made. But during the latter stages of our negotiations the old subject of opposition to our work in Canada by a certain group of dentists was introduced. This entirely changed the aspect of our endeavors and so impressed the Squibb people that they felt that it would be doubtful wisdom for them to enter into this affiliation with the possibility of this opposition becoming a destructive factor. I was then referred to N. W. Ayer & Co., the advertising agents of the Squibb firm, before whom I reviewed the entire proposition from our side and left the matter to them for a report to be presented to Mr. Weicker. This report, which consisted of eight typewritten pages, opposed the affiliation on the grounds that any opposition to Squibb Paste ~~would~~ ~~xxxx~~ - Hutax Combination would be reflected as opposition to the general line of pharmaceuticals and proprietary articles manufactured by the Squibb Company, and therefore, would be detrimental to their interests. Mr. Weicker, the Managing Director, informed me that he personally had hoped that we could consummate some agreement that would ~~xxxx~~ have been of mutual benefit; but he felt that in the face of this adverse report he could not justify any other action to his Directors than to decline it at present.

He suggested that if it were possible to make a test case or temporary arrangement for one year, he would be glad to have my suggestions later along this line. This is impossible, on account of the restrictions they place on the name Hutax.

The conferences with the Squibb organization from beginning to end were pleasant; they gave an unusual amount of time to the matter; went thoroughly into every detail of it; were apparently very much interested in the welfare of the C.O.P.A. and the work it has done - but this old difficulty of unjust criticism and propaganda from the group that has constantly antagonized our Association and endeavoured to obstruct our every effort, has got in its work in this particular instance again and destroyed all that we had built up through several months' hard work.

We are now faced with the necessity of starting all over again in an endeavour to bring about the changes we desire. These changes are impossible with our present affiliation. Our product must be changed and brought up to date, and there must be an aggressive merchandising of it in order that it shall hold its own with similar products.

The sales last year decreased to about one-half of the normal output. This year they are remaining constant with that of last.

During the past winter in Western Canada, I was able to gain some considerable publicity and support for the C.O.P.A. and its products through contact with a large number of dentists. All of these men have promised to co-operate, but unfortunately it has been proven that the memory of these promises is very short-lived in the face of the extreme competition encountered from the manufacturers of other products.

There are at present two other prospects for affiliation which I would suggest that we ~~xxxxxxxxxxxx~~ pursue in an endeavor to arrive at some satisfactory working plan.

The Hutax Brush sales have considerably increased during the past three months, due to some special deals that Mr. Stevens has put over. I would like here to express my appreciation of the fine spirit displayed by Mr. Stevens in his co-operation with the C.O.P.A. He has done a great deal more in the way of advertising and publicity than his contract called for, and his one aim appears to be to put forth every effort to promote the sales of Hutax Brushed.

Various other matters will come up for consideration tonight, of which I ask your earnest consideration.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

Minutes of the Adjourned Annual Meeting of the Canadian Oral Prophylactic Association held in the Club Room of the Physicians' & Surgeons' Bldg., 86 Bloor Street West, at 8 P. M. on September the 30th, 1929.

PRESENT: Dr. Trotter, Dr. McDonagh, Dr. Webster, Dr. Grieve, Dr. Thomson, Dr. Broughton.

REPORTS: The President called the Secretary to read the notice calling this meeting.

The Secretary read the minutes of the last Annual Meeting . Dr. McDonagh was called to the chair while Dr. Trotter gave the President's address.

Dr. Trotter moved the adoption of this report. Seconded by Dr. Grieve.

CARRIED.

PRESENT: Dr. Trotter, Dr. McDonagh, Dr. McMulkin, Dr. Grieve, Dr. Gausby, Dr. Thomson, Dr. Broughton.

Moved by Dr. Grieve, seconded by Dr. Gausby that we approve entering into an agreement with McGillivray Bros., Toronto, giving them the right to manufacture and sell Intax tooth paste and powder according to the terms of the contract of this date prepared by our solicitor, Mr. Fraser. On the strength of this agreement the Secretary is hereby authorized to sign this contract and affix the seal of the Association.

CARRIED.

The meeting adjourned.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

Minutes of a Board meeting of the Canadian Oral Prophylactic Association held at 12.30 noon on January the sixth at the Diet Kitchen.

PRESENT, Dr. Trotter, Dr. McDonagh, Dr. Gausby, Dr. Thomson, Dr. Grieve, Dr. Broughton,

Moved by Dr. Broughton, seconded by Dr. Gausby that the sum of \$300.00 be appropriated to cover any expenses of special and general meetings for the year 1930, and any out of pocket expenses for the members for the year 1930.

CARRIED.

Moved by Dr. Thomson, seconded by Dr. Gausby that the modified formulae of Hutax Paste as submitted in sample number 2 be adopted.

CARRIED.

Moved by Dr. Gausby, seconded by Dr. Grieve that the following letter be sent to Mr. Thomcof, Lyman Bros.,:

" Following the verbal discussion which you had with Dr. H. S. Thomson, this letter will officially confirm the termination of the agreement we have had with your firm, Lyman Bros. Co. Ltd/ for the manufacture and sale of Hutax Tooth Paste.

At a meeting of the Exexutive of the Canadian Oral Prophylactic Association held yesterday a resolution was

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

passed expressing its appreciation of the satisfactory associations between your firm and the Canadian Oral Prophylactic Association for the past twenty years/. The resolution emphasized the fact that your firm had been highly honourable in all its dealings, and always willing to co-operate to the best advantage of the Canadian Oral Prophylactic Association. We have realized that of recent years the Hutax products have been manufactured by you at very little profit, but we feel that this was due to the fact that the Canadian Oral Prophylactic Association is a charitable organization, and you in this way were lending your aid in support of its policies. The executive felt that this was highly commendable on the part of a business organization."

CARRIED.

The meeting adjourned.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of the Annual Meeting of the Canadian Oral Prophylactic Association held in the Club Room of the Physicians' & Surgeons' Bldg., 86 Bloor St. West, Toronto, at 8 P. M., of the Tuesday, January the 21st, 1930.

PRESENT: Dr. Trotter, Dr. McDonagh, Dr. Webster, Dr. Ellis, Dr. Gausby, Dr. Grieve, Dr. Broughton.

BUSINESS: Moved by Dr. Grieve, seconded by Dr. Gausby that Dr. Trotter be chairman of the meeting.

CARRIED.

The Secretary read the minutes of the Adjourned Annual Meeting held on May the 2nd, 1929.

The Secretary-Treasurer read the Financial Report.

The Vice-President took the chair while Dr. Trotter presented the President's report.

In the absence of Dr. Thomson the Secretary-Treasurer read the report of the Dental Executive.

Discussion of the President's report.

Dr. Trotter read the letter being sent to every dentist in Canada, introducing the new Mutax paste. This was corrected slightly and approved.

Dr. Webster wondered if it were advisable to do more work for the dentists of Ontario or if it would be encroaching on the duties of others.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

-2-

Dr. McDonagh read his proposed letter to the dentists to follow the forgoing letter from Dr. Trotter.

Dr. Trotter suggested that a little box containing brush, paste, tape, etc. be prepared suitable for a dentist to present to his patient.

Moved by Dr. McDonagh that the Report of the President be adopted, seconded by Dr. Ellis.

CARRIED.

Moved by Dr. Grieve, seconded by Dr. McDonagh that the Financial Report be adopted with the following changes, the word Director to be changed to Dental Executive.

CARRIED.

Moved by Dr. Gausby that the Executive be empowered to dispose of the C. N. R. bonds as suggested by the Auditors if they find it expedient. *L. D. Gausby*

CARRIED.

Moved by Dr. Broughton, seconded by Dr. Ellis that the report of the Dental Executive be adopted.

CARRIED.

Moved by Dr. Broughton that the incoming executive be instructed to take up Dr. Trotter's suggestion re the combination ~~action~~. Seconded by Dr. Ellis.

CARRIED.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

W Cecil Goller Pres

President's Report, Annual meeting Jan. 21st 1930

DR. W. CECIL TROTTER

918 MEDICAL ARTS BLDG.

TORONTO 5

Gentlemen:-

Unfortunately the duties of Dr. Harry S. Thomson in connection with work in Alberta for the Canadian Dental Hygiene Council prevents him from being here to-night to kindle in us the real spirit of enthusiasm which he is so capable of doing.

At our last Annual Meeting both your Dental Executive and myself stressed the importance and urgency of improving the consistence and flavor of Hutax paste and arranging better marketing facilities for it. At that time the outlook for reaching these objectives seemed anything but bright, however since then Dr. Thomson & myself had the good fortune to get in touch with the very responsible firm of McGillvray Bros, manufactures agents who are sole agents for Yardley's products in Canada and we have been able to consummate an agreement with them which should prove satisfactory to both parties and should enable to accomplish the objects for which we have always striven. It is true that the scale of royalties we are to receive may seem small in comparison with what we have been receiving, but to compensate for that we have a powerful well trained selling organization in close touch with the drug-trade throughout Canada and which is already spending and will continue to spend considerable money on high class advertising. These efforts on the part of our selling agents combined with the the support which should be given by the members of our association and the dental proffession as a whole should result in vastly increased sales compared with what we have been getting with an unpopular product backed up by no selling or advertising

DR. W. CECIL TROTTER

918 MEDICAL ARTS BLDG.

TORONTO 5

effort on the part of the manufacturers and only a half hearted support from the dentists. The increased sales should eventually bring us in at least as large an income as we used to enjoy and enable us to continue our most effective dental health missionary work throughout the Dominion.

This association as a party to bonafide agreements with the Stevens Hepner Co. for the brushes and with McGillvary Bros. for the paste are in honor and duty bound on our part to do our utmost to stimulate the enthusiasm and support of not only the members of our association but the dental profession as a whole to the whole hearted support of Hutax brushes and Hutax paste. If we all do our duty in this respect I have no doubt but that our accomplishments in the aid of mouth health work throughout Canada will be even more outstanding in the future than they have been in the past.

I again want to take this opportunity of thanking the officers and members of the executive committee for the wonderful faith and support they have given Dr. Thomson and myself during the past year and often under very trying circumstances.

Jan²⁴ 5/30

REPORT OF THE DENTAL EXECUTIVE OF
THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

Harry S. Thomson, D.M.D.

The report given at our adjourned Annual Meeting in September covered the activities of the Association for this present year up to that date.

You will be very glad to know that the negotiations which were in progress at that time with McGillivray Bros. regarding our affiliation with them for the sale and manufacture of Hutax Tooth Paste, have been completed, and we are starting out the year 1930 with high hopes for a greatly increased activity in the distribution of Hutax Tooth Paste, which increase means an increase in our financial contributions and support of Oral Hygiene and Mouth Health educational work throughout the Dominion.

We feel particularly well satisfied with the standing of the firm of McGillivray Bros. They are entering into this new task with a great deal of enthusiasm. They are providing literature and advertising material of a very high order. The personnel of their selling organization is composed of men particularly fitted for the task of detailing both dentists and druggists, and our Association is making every effort to assist them in enlisting the interest of 100% of the dentists.

Samples of the new Hutax Tooth Paste have been distributed to your Executives and others, and reports from these are high in their praise of the new product. We should be very proud of the new Hutax Tooth Paste. In it is incorporated the

results of our investigations during the entire history of the Canadian Oral Prophylactic Association. Samples of it have been submitted, in competition with nine of the leading commercial tooth pasts, to outstanding chemists, and they have reported that Hutax is decidedly superior. The formula is unique, the ingredients are the purest that can be obtained, and the compounding and manufacture of it are in the hands of the best pharmaceutical house in Canada.

The Hutax Tooth Brush during the year 1929 has shown a considerable increase in its sales. Our relations with the Stevens Hepner Co. manufacturers of the Hutax Tooth Brush have been all that we could desire. Your Executive is convinced that Mr. Stevens' interest in Hutax Brushes is not purely a commercial one, but that he is inspired through his knowledge of the aims and objects of the Canadian Oral Prophylactic Association and its work, to do more for us and the Hutax Tooth Brush than we could ordinarily expect from a commercial house. The quality of the brush has been maintained to a very high standard; its appearance has been greatly improved during the last year; the merchandising of it is in excellent hands, and I think it is safe to predict that in the future the Hutax Tooth Brush will be established on a very firm and satisfactory basis.

Due to our pending negotiations regarding the change in the agents of Hutax Tooth Paste, our royalties during this past year have fallen off considerably. This we hope will be remedied early in the coming year.

Falling royalties means a lessening of our ability to help finance Oral Hygiene and Mouth Health educational work, which after all is the fundamental basis of our structure and the

The formula is simple, and the

principles are the same that can be observed, and the corresponding

principles are the same that can be observed, and the corresponding

reason for our existence. We will endeavor during the coming year to bring to the attention of the dentists from time to time the desirability of their supporting Hutax products. The new Hutax Tooth Paste fulfills every requirement in a dentifrice. It is safe, efficient and pleasing. The brush is scientific in design, reliable in manufacture and construction, made in Canada by clean Canadian workmen in a sunshine factory. What more could we desire for Hutax products?

Let me once again re-affirm that the ideals upon which the Canadian Oral Prophylactic Association was built, and which that Association has endeavored to carry out during the last 25 years, still exist. The work they have done is without parallel in this or any other country. The great objective was to provide safe and satisfactory Mouth Health products to the dentist for his recommendation to the public, that in this way a revenue might be obtained to carry Oral Hygiene and Mouth Health educational work to every community in the Dominion. In 1925 the policy of the Association was changed, and instead of carrying on educational work direct from the Association, we have made a contribution of all our available funds for this purpose to the Canadian Dental Hygiene Council, that it might carry on the work even better than we could. The need for this educational work is as great today as ever, and I would like to lay it heavy on the heart of every dentist in the Dominion to study the policy of the Canadian Oral Prophylactic Association, to investigate fully its products, to experiment with and analyze Hutax Tooth Paste, and to prove the outstanding merits of the Hutax Tooth Brush. Having done this, he cannot help but recommend them, knowing that he is providing his patients with the very best obtainable, and that he is helping along the Association which has done so much for Health work in Canada.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

Gentlemen:-

Owing to the fact that we were looking into various possibilities and schemes for improving the marketing of our products at the time appointed for our annual meeting ^{Jan 15th} ~~May 1st~~. last and also because of the unavoidable absence from the city of our Dental-executive, the meeting was indefinitely postponed. Though we still have no definite marketing plan to report we have called this meeting to present to you the result of last years efforts and to discuss with you the various difficulties which constantly beset us, but which we still hope with your cooperation to solve. Since handing over our educational work to the C.D.H.C. we have lost certain direct personal contacts with the dentists which used to be a decided influence in securing their active support of Hutax products. Our only way of overcoming this disadvantage is to secure products so good and so attractive that they ^{will} compare ~~more~~ more than favorably ^{with the} with competing products and which marketed by the most up to date methods. Owing to our lack of funds for advertising purposes we are seriously handicapped but we still think that there is a possibility of convincing some reputable organization with financial backing, or the commercial advertising value of our ethical educational ideals.

We have reason to be encouraged by the slow but steadily increasing sales of the new Stevens Hepner Canadian made Hutax brush which is undoubtedly the best made brush on the market to-day. Mr. Stevens has more than fulfilled his agreement with us regarding the making and marketing of this splendid product and this association should stand back of him to a man.

DR. W. CECIL TROTTER

918 MEDICAL ARTS BLDG.

TORONTO 5

tooth paste

I regret to say that the sales of our ^{has} ~~has~~ not been making similar progress. Unfortunately ~~there~~ ^{we} there are difficulties in the way of creating a market for paste which are much more formidable than with the brush. There are so many competing products which are backed by huge expensive advertising schemes that it is difficult to secure a market for an unadvertised product even though it may have equal if not greater merits. Nevertheless I feel that the same success could be made by our paste if a company of the calibre of the Stevens Hepner Co. took a hold of it and put it on the market in an attractive form and secured broad distribution of it among the best drug houses throughout Canada, and at the same time secured the widespread cooperation of our members throughout the provinces. I still believe that so long as the very large majority of the dental profession are impressed ^{by the} ~~by the~~ ideals aims and achievements of this Association we can confidently count on their almost universal support of our products so long as they are efficiently and progressively marketed.

The Canadian Dental Hygiene Council is steadily becoming recognized as an important member of the public health organizations of the Dominion but still lacks definite financial backing and is therefore still unable to ~~beet~~ pay what it should towards its Field Officers remuneration. However we still hope that means will be found which will enable ^{it} ~~it~~ to do so in the near future. Again I have to thank the members of the Executive for their cooperation and forbearance through a year of many trials & tribulations

NOTICE OF ANNUAL MEETING

Now notice that the Annual Meeting of the Canadian Oral Prophylactic Association will be held in the Club Room of the Equilibrium & Surgeons' Building, 86 Bloor Street West, Toronto, on Monday, January the 12th, 1932, at 8 P. M.

Business: Reception of Reports.
Election of Officers.
Passing the Budget By-Law.
General Business.

Held at Toronto, this Thirty-first day of December, 1931.

W. C. Trotter,

President.

A. J. Broughton,

Secretary.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

MINUTES of the Annual Meeting of the Canadian Oral Prophylactic Association held in the Club Room of the Physicians' & Surgeons' Building, 86 Bloor Street West, Toronto, at 8 P. M. on Tuesday, January the 20th, 1931.

PRESENT: Dr. Trotter, Dr. Grieve, Dr. Dausby, Dr. Thomsen, Dr. McDonagh, Dr. McMulkin, Dr. Adams, Dr. Webster, Dr. Broughton.

BUSINESS: Moved by Dr. Grieve, seconded by Dr. McDonagh that Dr. Trotter be Chairman of the meeting.

CARRIED.

The secretary read the notice calling the meeting.

The Secretary read the Minutes of the last Annual Meeting held on January the 21st, 1930, which were approved by the meeting.

The Vice-President took the chair while the President presented his report. It was moved by Dr. Trotter that the president's report be adopted. *Seconded by Dr. McDonagh.*

CARRIED.

Dr. Trotter read a letter to be sent to all the dentists in Canada. Dr. McDonagh suggested including in the letter the original object of the C. C. P. A. of looking after indigent dentists and their families.

Dr. McMulkin suggested that an endeavor be made to have a speaker

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

(2)

address the Academy of Dentistry and other Dental Societies introducing this object of the C. C. P. A.

Moved by Dr. Grieve, seconded by Dr. McDonagh that Dr. Trotter appoint a committee of two to approach the President of the Academy to obtain permission for a representative of this organization to appear for 10 minutes, if possible at the next meeting, to present to the Academy the needs of the indigent dentists of Ontario and the possibility of helping these by the recommending of Mutax products.

CARRIED.

Dr. McDonagh suggested that Dr. Trotter approach the Ash-Temple Co. to find out other cases of want in the profession.

Moved by Dr. McDonagh, seconded by Dr. McMulkin, that a committee composed of Drs. Webster, Grieve and Trotter be appointed to confer with Dr. Trotter regarding a letter to be sent to the profession.

CARRIED.

Moved by Dr. Webster, seconded by Dr. McMulkin that the President be delegated to address the Academy provided a favourable report comes from the committee.

CARRIED.

The Treasurer presented the financial report, and moved the adoption of the report. Seconded by Dr. Gausby.

CARRIED.

The report of the Dental Executive was presented by Dr. Harry S. Thomson, and after much discussion it was moved by Dr. Broughton, seconded by Dr. Grieve that the report be adopted.

CARRIED.

The first part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The second part of the paper focuses on the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The third part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The fourth part of the paper focuses on the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The fifth part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The sixth part of the paper focuses on the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The seventh part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The eighth part of the paper focuses on the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The ninth part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The tenth part of the paper focuses on the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and easily accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

Dear Sir:

The Annual General Meeting of the Canadian Oral Prophylactic Association will be held Tuesday, January 17th, 1935 at the Physicians and Surgeons Bldg., 86 Bloor St. West, Toronto, at 8 O'clock P. M.

Business:

Selection of Officers, Presentation of reports, Adoption of the Budget by-law and General Business.

Yours very truly,

W. C. Trotter, Pres.

A. J. Broughton, Sec'y.

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of an Executive Meeting of the Canadian Oral Prophylactic Association held at Mrs. Shearer's Chop House, Wednesday, January 27th. at 6.30 P. M.

Present: Drs. Gausby, Grieve, Thomson Broughton and Dr. McDonagh by request.

Business: The board discussed the matter for the proposed broadcast advertisement of Mutax, also the matter for some newspaper ads.

Dr. Thomson brought up for discussion a proposition suggested by Mr. McGillivray that all dentists be made members of the C.O.P.A., and be furnished with a card, on the presentation of which to any druggist, he would get a 20% cut on Mutax goods.

The committee thought it a good idea but pointed out that it would be impossible to make all the dentists members without the 1.00 fee, but suggested that the card be worded so as to extend that privilege to all dentists as a courtesy from the C.O.P.A.

Moved by Dr. Broughton seconded by Dr. Gausby that Dr. Trotter be president.

Carried.

Moved by Dr. Broughton seconded by Dr. Grieve that Dr. Gausby be vice-president.

Carried.

Moved by Dr. Grieve seconded by Dr. Gausby that Dr. Broughton be appointed Sec'y-Treas.

Carried.

Meeting adjourned.

C.O.P.A. Annual Meeting
1932

Gentlemen:-

Since our last annual meeting Canada has passed through the throes of one of the worst industrial and financial panics the world has known and no one as yet can predict when the turn will come. In face of such conditions I think that we are extremely fortunate to be able to report an increase of ^{approximately} 15% in the sale of Hutax tooth paste and brushes. Owing to the unexpected delay in getting the New Hutax Brush on the market we have not yet had a fair chance to estimate its popularity but I feel that the sales so far are at least encouraging. MacGillivray Bros. have more than lived up to their agreement in the amount of money they have expended in creating a market for Hutax products. By judicious advertizing and distribution of samples besides employing full time detail men to call upon the members of the dental profession they have made Hutax products familiar to the public in a much broader sense than ever before. Though this firm is ^{currently} ~~already~~ out of pocket in the neighborhood of ~~Ten Thousand Dollars~~ ^{Sixteen} they have lost none of their enthusiasm and confidence that they will ultimately win out, in fact they hope to be square by the end of another year providing they get the cooperation they desire from our Association and from the profession as a whole.

I think that it is only fair that this Association should take some action to more or less protect McGillivray Bros. in the capital expenditure they have already made by giving them some sort of assurance that no matter what changes may be made in the personnel of the offices or of the executive of this Association they will be assured of the same cooperation and support as agreed to in the contract.

Our Dental Executive, Dr. Harry S. Thomson has again served this Association most faithfully and diligently during the past year and both he and I feel that the dentists of Canada are better acquainted with our products and with the good we are accomplishing than they have ever been before. We are also still quite hopeful that with a return to better times our revenue will improve sufficient to provide a fund for dentists who have met with adversity through no fault of their own.

Toronto.

Dear Sirs,-

In regard to your letter of Nov.3rd.to the Canadian Oral
Prothodontic Association,I may say that I brought its contents to
the attention of the Association at their annual meeting on January
12th.They very thoroughly discussed all the facts and circumstances
referred to in your letter and instructed me to assure you that they
have the utmost confidence in your scheme of merchandizing Gutax
Products and in its ultimate success.They also wished me to inform
you that no changes had been made in the personell of the directorate
for the ensuing year and that they had no intention of doing anything
which might tend to hamper you or interfere with your contract so ~~long~~
long as you continue your aggressive policy of merchandizing Gutax
Products.They all feel quite confident that the money you are now expen-
ding and the methods you are using to promote sales will shortly be
justified by a return to you of all profits generated together with lib-
eral profits.So long as you continue these policies you need have no
worry about our continued cooperation and loyalty.

Yours Sincerely

W. C. L. Gault

Attention Dr. W. C. Trotter

Gentlemen:

It is now some eighteen months since we became your sole distributors of Hutax products in Canada, and while we have no apologies to make, certain things have given us considerable concern, which we would like to lay before you. We have every confidence that Hutax products will ultimately hold a primary position throughout Canada, but as stated to you when we first took on the agency, it means a long and expensive pull. Both preparations - that is, Tooth Paste and Tooth Brushes - are probably the most highly competitive articles today sold in drug stores. Most national manufacturers are practically giving their goods away - with free deals, bonus offers and outrageous discounts. A great deal of this can be attributed to the general depression - and in many cases, the amalgamation of some of the big pharmaceutical interests. In other words, there is a price war on, and it has drawn the retail Drug Trade of Canada into it.

We know that our methods of merchandising are sound and will win out. The time will come - and is now close approaching - when the trade will be absolutely tired of deals, bonuses and what-not, which show them no profit. And in the meantime we are just going along, gradually building a foundation which, we believe, will bear fruit - to our mutual benefit.

This is taking a great deal of investment on our part, and we are writing this letter just to lay the facts before your organization. We intend in 1932 to enlarge our advertising. During the past year we have had a detail man calling on the dentists throughout Ontario, Quebec and the Eastern Provinces, and a part-time man for Western Canada - that is, from the head of the Lakes to Victoria. These men have done exceptionally good work. They have brought Hutax to the notice of every dentist in Canada. But this is all primary spade work, which in our opinion is essential. But, you must realize that it is extremely costly to us. On top of all this, we have spent, are spending, and will continue to spend money in the daily press, in the way of consumer advertising. Thus, when we ended up last year, as at December 31st, we had actually lost, out of pocket in round figures, \$10,000.00.

11/3/31.

This year, due to the fact that the sales are increasing, and that we have the Tooth Brushes, the loss will not be as great. Of course, when we made the agreement with you, we anticipated that we would have to make a considerable investment before we began to get anything back.

While we have every confidence in your present organization, and we believe you have in us, we feel that in justice to ourselves, we should have some assurance that, in the event of any change being made in the personnel of your executive, we feel, for the money we have actually lost, that we should have some guarantee. We realize it is a rather hard thing to make provision for something of this nature, as we certainly could not expect the executives of the C.O.P.A. to guarantee, personally, any such outlay. While we do not anticipate its happening, the new executive might want to make a change in the selling agency, which would of course leave us very much in the hole. Could we not work out something like this: in the event of either the present, or future executives of the C.O.P.A. feeling they would like to make a change in the selling agency, appoint some other firm, or arrange it another way - that that party, or persons, taking over these selling rights compensate McGillivray Bros. Ltd. for the amount of money actually out of pocket. If we are going to bring Hutax sales to where they ought to be, we are practically compelled, in fairness to the promotion of the business, to spend considerable money, which we cannot hope to get back for some time. We are just raising these points to give you our view-point. We think, when you analyse it among yourselves, you will fully appreciate the position we are in.

This letter is written with no intention whatever of giving you the impression that we are "fed up" - because we have every confidence in the ultimate success of your preparations. Will you please let us hear from you.

Yours faithfully,

McGILLIVRAY BROTHERS LIMITED.

President's Address

C.O.P.A. Annual Meeting Jan. 20th, 1931.

Gentlemen;-

At our last annual meeting we announced the consummation of a most satisfactory agreement with Mac Gillvray Bros. sole agents for Yardley's products in Canada. They agreed to accept the sole agency in Canada for Hutax tooth paste and Hutax tooth brushes upon terms quite satisfactory to us. I can assure you that they have more than lived up to their promises, and had they received the cooperation and support of the dentists which we promised them there would have been nothing to complain about.

It is difficult to understand how the dentists of Canada, knowing full well the tireless work and sacrifice which this Association has made for years in an effort to supply the Profession with the best that can be had in the way of a reliable tooth paste and tooth brush, will continue to recommend other products which are no better if as good, knowing that all the profits from Hutax products are devoted to broadcasting the gospel of mouth-health throughout Canada through the agency of the C.D.H.C. We have always had an ambition to not only do this but have hoped to have enough money left over to assist those of our profession who through no fault of their own have met with misfortune either in the loss of their health or in the loss of their income or both. Now that the sales of Hutax products are steadily increasing we hope soon to be able to formulate some plan to realize this worthy ambition.

I wish to take this opportunity of thanking the directors and officers of this Association for the cooperation and patience they have shown both Dr. Thomson and myself during the trying and uncertain times we have spent endeavoring to rehabilitate both the paste and the brush and to establish a broader market for them and I wish to assure them that I have the utmost confidence in what the future has in store for us.

President.

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

REPORT

To have carried on for 27 years a business organization that has dispensed tens of thousands of dollars for education and charity; to have perpetuated an ideal, that ideal being to provide a safe, efficient, mouth cleansing tooth paste and brush which would safeguard the patients' health and bring a sense of security to the prescribing dentist; and to use the profits to establish a fund to promote educational work along mouth health lines to the community - this has been the history, for over a quarter of a century, of the Canadian Oral Prophylactic Association.

Its Board of Directors is made up of some of the most outstanding dentists in the Dominion of Canada, who have given generously of their time to promote the best interests of the Association, and who have watched very carefully over the products in order that they might be maintained at their high standard of efficiency, and who have built up and carried on this big business and philanthropic organization without one cent of fee or reward. Never in the history of the Canadian Oral Prophylactic Association have any profits been divided or dividends declared. Every cent of its profits have been used for just one purpose, to foster, perhaps the greatest ideal in the world - better health.

Twenty-seven years ago a large percentage of the dentifrices on the market were positively harmful. The Canadian Oral Prophylactic Assn. at that time produced Hutax tooth paste. At the time of its introduction there was established one definite

standard, and this was that Hutax tooth paste should be a simple tooth cleansing dentifrice; that it must be efficient and safe; that its formula, written in English, must be enclosed in every package. At the beginning this formula was submitted to dentists that they might prescribe it individually to their patients. This necessitated that the product should be compounded by the family druggist, which proved impracticable. The Association then decided to have it manufactured and made available to the consumer through the drug stores.

A review of the history of dentifrices that have been on and off the market during the past twenty-seven years will be interesting, and will clearly prove the scientific soundness of the standard established for Hutax. During this long time we have passed through periods of popularity of various theories regarding dentifrices. Hutax came out as a safe, efficient, simple tooth cleansing preparation, free from all starches and sugar, the dominating evil influence of the various commercial products. To such an extent did this theory dominate that the Association found great difficulty in having a tooth past manufactured using glycerine instead of simple syrup as a vehicle, and it might be well to state here that within six years after the introduction of Hutax almost every tooth paste on the market had copied its method and adopted the use of glycerine.

Perhaps the first great change advocated in dentifrices was in the promotion of the so-called peroxide preparations, or preparations that liberated oxygen. Through high pressure advertising and publicity, the public and ~~some~~ some of the profession were almost convinced that this theory was sound, but

the short existence of this fallacy proved the unscientific basis on which the theory was established. These preparations have now been relegated to the discard.

The next change was the introduction of medicated and strongly germicidal tooth pastes. Again the high pressure salesman and advertiser was called upon to educate the public to the fact that in order to have a healthy mouth it was necessary to apply medicine three or four times a day. This statement was made and advice given regardless of the fact of whether or not the mouth was diseased. This very unstable theory soon toppled, and medicated pastes and strongly germicidal pastes have passed along into the same discard.

Still another phase developed - the acid tooth pastes. According to the ad. writers and the commercial promoters, acid tooth pastes were going to revolutionize every phase of mouth health or disease. ^{These} ~~It~~ was going to eliminate all digestive disorders and all diseases of the ~~elementary~~ tract. ~~It~~ was going to permanently change acid saliva into alkaline, and eventually eliminate all dental decay and dental disease. This theory has also passed into the discard, and the fact that it lived so long is a manifestation of the credence given by the public to advertisements and unscientific and pseudo-scientific publicity. ~~Not only the public, but dentists and apparently~~ scientific men made broad statements supporting this theory, but it is sufficient to say that some of these same men today have openly repudiated their former statements and acknowledged their mistake.

Still another phase was entered, and this phase exists somewhat up to the present time, and that is that strong hard

grit is required in modern dentifrices in order to remove "the film". There is no need for scientific proof of the destructive qualities of such dentifrices. Common sense teaches the user and the dentist that hard grits are harmful and that a great deal of injury has been done through their use. In spite of the fact that the dental profession as a body have been definitely opposed to their use, such products, containing this harmful property, have been sold in large quantities, due solely to high pressure advertising and salesmanship. The harm that has been done through the use of such products is permanent, and many a person has suffered materially in health through their use.

But to-day a new conception of a satisfactory dentifrice has been established. Through the medium of a special Committee appointed for this purpose by the American Dental Association, and through scientific investigation carried on by various outstanding dental scientists, the profession is convinced and the public is gradually becoming aware of the fact that a dentifrice must be used simply as a tooth cleansing preparation. Just as soap and water is used on the face and body, so should water and a proper dentifrice be used to clean the teeth.

This description of a scientific dentifrice brings us definitely to Hütax. Twenty-seven years ago Hütax was established on these very premises by the Canadian Oral Prophylactic Assn. , and through all the years they have maintained it there. There have been times when opinions differed as to whether it was wise to adopt this or that changing ~~fact~~ theory, but the Directors remained constant to their ideal, and their sound judgment has surely been vindicated. They have adhered tenaciously to their

It is pointed in modern dentistry in order to remove "the

that a denture must be used simply as a tooth cleaning
reparation. Just as soap and water is used on the face and
body, so should water and proper denture be used to clean

There have been times when opinions differed as to whether it was
to adopt this or that changing test or theory, but the

true conception of the requirements of an approved dentifrice and their judgment has been vindicated covering a period of 27 years, and to-day no preparation is accepted as safe by the American Dental Association's special committee unless it conforms to ^{these} ~~their~~ requirements, which are the same as those which were established by the Canadian Oral Prophylactic Assn. 27 years ago, and maintained by them up to the present time.

The history of the Hutax tooth brush would follow almost parallel lines. Great changes in tooth brushes have come and gone - long handles and short handles, big brush heads and small brush heads, widely spaced tufts and closely massed bristles, curves this way and curves that way, but through all this period of change Hutax has supplied a satisfactory tooth brushing surface conforming to the most desired shape for the greatest efficiency, ever maintaining the highest quality of product, and ever ready to make any changes that are proven to be desirable.

Hutax products were established without any thought of profit making. They have been perpetuated on this same basis. The one and only aim has been to provide the very best product obtainable. ^{This} has been easy to accomplish as no dividends or profit sharing were possible within the organization, ~~but even on this plan some profits have been made.~~ The Canadian Oral Prophylactic Assn. has had Hutax products made by leading manufacturers on a royalty basis. On every Hutax tooth brush sold, and on every tube of Hutax tooth paste, the Canadian Oral Prophylactic Assn. receives a royalty of 3¢, and this royalty has established a fund which has enabled the Association to promote its one fundamental ideal - better health.

Last ten years

During the ~~years since its formation~~, the Association has been able to dispense for educational and charitable purposes the sum of \$45,363.93 ^{4536.39} ~~on~~. It has assisted every province in the Dominion to promote Oral Hygiene and public Dental Health. It has given financial assistance to promote scientific effort within the Dental Profession. It has been the father of the Oral Hygiene movement in Canada. ~~It~~ Ever realizing that the very best work along public Dental Health can be accomplished through the efforts of the individual provinces, it has lent its assistance to bring about this end, and at the present time it is lending its financial support to assist the Canadian Dental Hygiene Council in carrying out a work that is unique, through an organization that is unusual, and which is doing a work that I think is unparalleled in Public Dental Health effort throughout the world.

All of this work ~~has been~~ accomplished by the C.O.P.A. during the past 27 years has been carried on, not by a business house or a special group of business men, but by men who have attained the highest rank in their profession, who have given a great deal of time, ^{deliberated} attended many meetings each year, who have ~~considered~~ and decided on various matters, and the success which has been achieved by this Association is an evidence of the earnestness and zeal with which they have devoted themselves to this altruistic ideal.

During its history the C.O.P.A. has had its good years and its bad years. The greatest difficulty that it has to contend with has been the tremendous amount of money spent in advertising and publicity by the producers of the ordinary commercial dentifrice. The C.O.P.A. has had to depend entirely upon the support

of the Dental Profession, to market its products, and the only reason for ~~that~~ support was that ^{the dentists} ~~they~~ were satisfied ^{that} ~~with~~ the product was scientific and safe. The Association appreciates greatly the support that the dentists have given, but they are asking this year, more than ever, that every dentist in Canada will study the history of the C.O.P.A., that they will investigate its products, that they will brush up on the new theories of the requirements of safe modern mouth cleansing products,

and they will then be assured ~~of the scientific quality of the products~~ and it is to be hoped that the use of these products will result in a better mouth health of their patients, and for the promotion of better general health in their community. ~~that the standard of denture products is maintained~~

Support from the dentist means a greater distribution of Hutax products. A greater distribution of Hutax products means increased royalties to the C.O.P.A. Increased royalties to the C.O.P.A. means that a greater work can be accomplished, that more assistance can be given to the Canadian Dental Hygiene Council, and the various provincial Oral Hygiene Committees, ~~and that means that~~ the individual dentist is then serving the highest ideals of his profession, the promotion of preventive dentistry and mouth health, which brings about better general health to his entire community.

The new Hutax tooth paste which conforms to every scientific requirement, ^{provides the} ~~brings to~~ your patient, not only a safe, efficient dentifrice, but a delightfully pleasing one. It has those very qualities which make a clean mouth feel cleaner and sweeter. It is sufficiently abrasive to remove slight stains and discolorations, and has strong cleansing properties which assist in the removing of ^{fermenting} ~~debris~~ ~~destructive~~ food particles. It is manufactured and distributed now in Toronto by McGillivray Bros. at Yardley House, and is on sale in every drug store in Canada. Hutax ~~products~~ ^{tooth brushes} are also distributed by this same firm. These brushes are manufactured in a clean sunlit factory by clean Canadian workmen. These facts of manufacture and distribution alone are an argument in favour of Hutax. There are no foreign affiliations with the Company. There is no parent house in some outside country, no dividends or profits are going to any monopoly or director. Every cent of the royalties received are used in Canada for Canadians to promote better mouth health. At this, the 27th Annual Meeting, in 1932, we are asking you as a profession to get strongly behind Hutax products. We are asking you to prescribe them and advise them (after you have thoroughly studied them), assuring you that not only will your patients' health be promoted and your own work safeguarded, but the health of your community will be improved through your prescribing Hutax products.

The year we have just passed through has been a trying one for every organization and every business. The C.O.P.A. is no exception. But we are very glad to report tonight that the sales of Hutax Tooth Paste have increased 17% ~~over~~ over the year 1930, and the sale of Hutax tooth brushes 12% over 1930. This surely

ent, business to your printing not only a safe, efficient
I highly recommend one. It is a most very

which made a clean modern feel cleaner and sweeter.
is entirely new save to remove slight staining and discol-
25, and a strong, clean, properties which exist in
of which is a most perfect. It is a most

and distributed now in Toronto by the following firms.
yours, and it is an ideal in every sense in which
known to be distributed by the same firm. These
is one manufactured in a clean white fabric by which
to workmen. These kinds of materials and distribution
the an experiment in favor of them. There are no foreign

relations with the company. There is no parent house
a safe, certain, no of which is perfect, and which is
very good of the quality
lived in Canada for centuries to have been
a health. It is this, the 17th annual, in 1891, as
which is a most perfect to be a most perfect

you have the same quality, or better, in this not
will your patients' health be promoted and your own work

is encouraging in the face of greatly lessened sales in almost every other line of activity.

McGillivray Bros., Selling Agents, have during the past year devoted a great deal of energy to publicity and the advertising of Hutax. Their detail men have called on every dentist in the Dominion and have left with them samples, and this firm in its report at the end of 1931 advises us that with only one ~~or~~ two exceptions throughout the entire Dominion, the dentists have expressed their approval of the policy of the C.O.P.A. and have promised to support its products. We are starting out on the new year of 1932 with our hopes stimulated by increased sales during the past year, with every confidence in the sincerity and progressive policy of our selling agency, McGillivray Bros., and with the conviction more firmly impressed upon our minds that our products are supreme in the field which they serve, and that they are providing the dentist with the very best means of promoting better mouth health in his patients.

This year, 1932, should bring us more funds from the increased sales of Hutax products, ^{then} ~~which~~ will allow us to further extend our financial assistance to the Canadian Dental Hygiene Council that it may increase its efforts along public Dental Health lines ^{and} to the various provinces, ~~to~~ bring about that desired end when every province shall have a division of Dental Health in their Department of Health, and when a greater number of people ~~will~~ realize that a healthy mouth means better general health, and that a diseased mouth may lead to general disease conditions, and that this diseased condition may be eliminated through health education. ~~This~~ This was the aim of the Canadian

Oral Prophylactic Assn. twenty-seven years ago, and has continued to be the aim down through every one of these twenty-seven years to the present time.

In closing, I feel that I must pay some tribute to the men who founded this Association, who through these long years have at personal sacrifice promoted its best interests, and who have ^{that} deviation supported one ideal, and that ideal was sound has been proven through 27 years of history, and ~~that ideal is~~ -

To provide the best means of ~~maintaining~~ better mouth health. To use the funds derived from royalties on ~~the~~ ^{the} ~~book~~ ^{book} ~~to all countries~~ ^{to all countries} ~~These men have worked for the~~ ^{These men have worked for the} ~~useful and sometimes magnificent work~~ ^{useful and sometimes magnificent work} ~~seen that the satisfaction in the growth and~~ ^{seen that the satisfaction in the growth and} ~~for reaching influence of the ideal which~~ ^{for reaching influence of the ideal which} ~~they pointed, marked, and made with~~ ^{they pointed, marked, and made with} ~~a practical reality. They have added much that~~ ^{a practical reality. They have added much that} ~~is worth while to the profession of dentistry.~~ ^{is worth while to the profession of dentistry.}

Toronto.

Attention - Mr. T.A. McGillivray.

Dear Mr. McGillivray:

At the annual meeting of the Canadian Oral Prophylactic Association last Monday evening, a resolution was moved and carried that the following paragraph from our Annual Report be submitted to you in a letter as expressing the attitude of the entire Executive of the Canadian Oral Prophylactic Association, in their appreciation of the business relations which we have had with your firm during the last few years:

"I cannot speak too highly of the co-operation given us by McGillivray Bros. It is more than co-operation - it is unselfish service. This firm, I am sure, has been imbued with the ideals for which our organization exists, and because of that they have been willing to greatly extend their efforts beyond the point we would reasonably expect in any regular business transaction. They have been constantly willing to try out any experiment that appeared to be of value notwithstanding the fact that it involved an expenditure of a sum of money greatly in excess of what they could reasonably expect in return. They have devoted much more time to our Association and Unitax products than the size of the financial returns warranted, and, best of all, I am sure that every member of their organization from the Manager down to the office boy is convinced of the superiority of Unitax products, and they are enthusiastically doing their part to promote the welfare of our Association."

The Association is rather encouraged by the fact that Unitax Paste sales improved slightly last year, and greatly rejoice that the sale of the brushes was down 50%, but when we look around and see that other organizations are in business concerns are having even greater difficulty than we are, we take courage and lengthen our cords and strengthen our staves", and hope our business will ride out the storm.

With very best wishes for the year 1933, I am,

Yours very sincerely,

A. J. Broughton, Secretary,
CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of an Annual Meeting of the Canadian Oral Prophylactic Association
in the club rooms of the Physicians and Surgeons Building, Tuesday
17th 1933 at 8 O'clock P. M.

Drs. Webster, Adams, Price, Busby, Grieve, McDonagh, McMulkin, Ellis
Thomson, Trotter and Dr. Nelson.

The Secretary read the notice calling the meeting.

The minutes of the last Annual Meeting were read and approved.

The vice-president was called to the chair while Dr. Trotter
presented the Annual President's report. The adoption of the
report was moved by Dr. Trotter.

The Financial Report was presented by the Sec'y Treasurer and its
adoption was moved by him.

Dr. H. S. Thomson read his report as Dental Executive.

Dr. Thomson moved the adoption of the report.

Dr. Grieve seconded the motion that the report be adopted.

Moved by Dr. Webster seconded by Dr. Adams that the President,
~~Dr. Trotter~~ and Dr. Thomson consider the matter of the cost
of doing business. *Be a Committee to*

Carried.

Dr. Webster moved that the President appoint a committee to go
into the manufacturing problems regarding the brush and paste.
Seconded by Dr. Adams.

Carried.

The President suggested that Dr. McDonagh, Dr. Thomson, Dr. Webster
and Dr. Trotter be on this Committee.

The Motions regarding the adoption of the reports was presented and
carried.

Moved by Dr. McDonagh seconded by Dr. McMulkin that a letter of
condolence be sent to the relations of Dr. McLachlan.

Carried.

Moved by Dr. Adams seconded by Dr. Grieve that Dr. Thomson write
a letter to Messrs McGillivray expressing the associations ap-
preciation of their efforts re promoting the Sales of the Tutax
Products.

Broughton.

Business: Moved by Dr. McMulkin, seconded by Dr. Grieve that Dr. Trotter
be appointed President.

Carried.

Moved by Dr. Grieve, Seconded by Dr. Trotter that Dr. Gausby
be appointed Vice-President.

Carried.

Moved by Dr. Grieve, Seconded by Dr. Gausby that Dr. Broughton
be appointed Secretary-Treasurer.

Carried.

Moved by Dr. Grieve, seconded by Dr. Gausby that the Secretary's
Assistant be remunerated 5% of net receipts.

Carried.

The Committee appointed to meet with McGillivray Bros. regarding
the Hutax products reported to the meeting.

The meeting adjourned.

Canadian Oral Prophylactic Association

Minutes of an Annual Meeting of the Canadian Oral Prophylactic Association held at the Good Companion Tea Rooms, 1779 Bay St., Toronto., Sunday, May 14th., 1934, at 6.15 P.M.

Present: Drs. Gausby, Gardiner, McGill, Trotter, Thomson, Broughton, McMullin, Price, Grieve, Fiske, Husband, Woollatt, Clarkson, Jordon, Ellis, Walker, Nichol, Babcock, McDonagh, Lapp.

Dinner was served at 6.30, and the business meeting opened at 7.20 P.M.

The Secretary read the notice, calling this meeting.

The Secretary read the minutes of the last meeting which were approved and signed by the President.

The Vice-President was called to the chair, Dr Trotter presented the President's report, and moved its adoption. Seconded by Dr. Grieve and carried.

The Financial Report was presented by the Secretary-Treasurer, its adoption was moved by the Secretary-Treasurer, Seconded by Dr. Gausby and carried.

Dr. Thomson read the report of the ~~EDental~~Executive followed by a long and interesting discussion.

Dr. Price asked if we had accomplished what we started out to do, or are we a purely Commercial concern.

Dr. Thomson answered that every standard tooth paste has improved due to the Hutax paste influence.

Dr. Grieve reviewed the passing of the Oral Hygiene work from the Canadian Oral Prophylactic Association to the Canadian Oral Hygiene Association and asked for some suggestion from this meeting, how we could best increase the sales of the Hutax products.

Dr. Woollatt and Dr. Walker asked if it were possible to give away small tubes. Dr. Thomson answered that the cost was prohibitive.

Dr. Husband criticized the brush, the breaking of the bristles gave the Hutax brush a black eye.

Dr. McDonagh reviewed the formation of the first Hutax tooth Brush and tooth paste, showing how they had revolutionized the entire field in the manufacturing of brush and paste.

Dr. Ellis suggested that the dentist supply their patient with the brush and paste.

Dr. Thomson informed the members of some of his work in the different provinces.

Dr. Clarkson, asked; ~~has~~ this organization fulfilled its mission, and is it time for this organization to disband, also why is the Hutax paste the best on the market. }

Dr. Lapp, suggesting ~~educating~~ ^{profession} the proposition of the work ~~of the~~ ^{by} Canadian Oral Prophylactic Association.

Dr. Thomson answering questions, stated at a recent test Hutax Paste ingredients were 33 1/3% superior in quality to the ingredients in other pastes.

Dr. McMulkin, Thinks the Canadian Oral Prophylactic Association is very much alive. Suggested leaving the business problems to McGillivray BROS.

Dr. Husband suggests that we get a number of dentists to guarantee to buy and dispose of a certain number of paste and brushes a month, also suggested that some short phrase to reach and interest the profession be adopted and used in circulars to the profession.

Dr. Grieve suggested circularing the dentists showing how the profession has benefited by the use of funds derived from royalties on Hutax products.

Dr. McMulkin, Suggested sending a short letter to twenty five dentists asking them if they would positively buy a quantity of paste and brushes and disposing of them to their patients.

Moved by Dr. Lapp, that after the new tube is on the market, a letter be prepared by Dr. Grieve, Dr. Thomson, Dr. McDonagh, and Dr. Ellis, following out the lines suggested by Dr. McMulkin and sent to the profession. Seconded by Dr. Broughton.

Amendment moved by Dr. Ellis that this matter be left to the coming Executive. Seconded by Dr. Babcock, ~~Fast~~.

The original motion was carried.

Dr. McMulkin moved that Dr. Husband, Lapp & Ellis, approach the Public Health Committee asking for a hearing at the Convention. Seconded by Dr. Grieve. Carried.

Moved by Dr. McDonagh that the brush submitted by Dr. Thomson be adopted. Seconded by Dr. Clarkson. Carried.

Moved by Dr. McMulkin, that the Association accept royalties of 11 1/2 cents on 25 cents products. Seconded by Dr. Woollatt. Carried.

1. The first part of the document is a list of names and addresses.

2. The second part of the document is a list of names and addresses.

3. The third part of the document is a list of names and addresses.

4. The fourth part of the document is a list of names and addresses.

5. The fifth part of the document is a list of names and addresses.

6. The sixth part of the document is a list of names and addresses.

7. The seventh part of the document is a list of names and addresses.

Moved by Dr. Babcock that McGillivray Bros. be requested to put on an exhibit at the coming Convention and that we pay half the cost.
Seconded by Dr. Gausby. Carried.

Moved by Dr. McDonagh, that Dr. Lapp be appointed an active member.
Carried.

Moved Dr. Woollatt be an active member, Moved by Dr. McMulkin and seconded by Dr. Grieve.

Election of Board of Directors.

Moved by Dr. McDonagh, Seconded by Dr. Grieve that Dr. Lapp be a director.

Dr. Trotter nominated by Dr. Ellis, Seconded by Dr. Gausby.

Dr. McMulkin nominated by Dr. Gausby.

Dr. Broughton nominated by Dr. Clarkson.

Dr. Woollatt nominated by Dr. McMulkin.

Dr. Gausby and Dr. Grieve were nominated but requested to be left off the board.

Moved by Dr. Grieve and seconded by Dr. Husband that the Secretary cast a ballot for those nominated.

Dr. Broughton moved that the meeting adjourn.

Carried.

W. Cull Shallen Pres.

ANNUAL REPORT OF DENTAL EXECUTIVE
CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

I regret to report that during the year 1934 there has been very little change in the financial aspect of the Canadian Oral Prophylactic Association. You will remember that our Annual Meeting last year was deferred until the Month of June. At that time we were greatly encouraged by the statement from McGillivray Bros. advising us that the new 25¢ size Hutax tooth past and the new 25¢ Hutax tooth brush would very likely both be on the market by July 1st. It was felt then that this reduction in the price of the products might greatly increase their sales, but unfortunately circumstances, over which we had no control, intervened, which have delayed the introduction of these lower priced products on the market. The result of this delay has been that we have been more or less drifting along and when I say "we" I mean McGillivray Bros. as well, and because of this drifting our financial statement this year shows an income ~~equal to~~ *adverse over* that of last year, no improvement and very little decrease.

Many conferences have been held during the year with Mr. McGillivray and Mr. Johnson, the Production Manager, and at each of these some progress was reported. At a meeting held with McGillivray Bros. during the past week, I was advised that the new 25¢ Hutax Tooth Paste was given to the travellers on Jan. 21st and the new 25¢ Hutax Tooth Brush will be on the market just as soon as disposal can be made of about 22 gross of the Youth's Brush which they now have in stock. In order to hasten the disposal

of these I have discussed with Dr. Grant the possibility of selling the entire lot to the City of Toronto Health Department at a special price. If we find that this cannot be adjusted satisfactorily between McGillivray Bros. and the City I would suggest that the Canadian Oral Prophylactic Association take the responsibility of adjusting the difference.

The new 25¢ tube of Tooth Paste is two-thirds the size of the former one which retails at 35¢, cut price 33¢. The larger one will still be made until such time as the demand for it has diminished.

During the past year we have had no complaints whatever regarding our products. The difficulty we experienced of the paste hardening in the tube appears now to have been eliminated. The Hutax brush which is now being made by Canadian Industries Limited is, I think, a better brush throughout, and I believe we will have very much less trouble from loosening bristles than we had heretofore.

A change and adjustment has been made in the amount of royalties paid by McGillivray Bros. on the 25¢ products. The amount paid will be $1\frac{1}{2}\%$ per tube instead of 3% as called for in the original agreement. This change in royalties was authorized by a resolution at our last Annual Meeting.

Our agents, McGillivray Bros. have met with some business difficulties during the past year, which we regret very much, but they are still optimistic over the ultimate success of distribution of Hutax products. Both Mr. McGillivray and Mr. Johnson have expressed themselves as confident that the change in price will increase the sales. Some instances have already been cited where

druggists who formerly bought three dozen of the higher price are giving orders now for a gross of the new one.

I must once again pay tribute to McGillivray Bros. for the earnestness and enthusiastic co-operation which they have given in the past and which is still maintained. While the outlook to us as members of the Canadian Oral Prophylactic Association is not very bright, there is none of that atmosphere with McGillivray Bros. We must acknowledge that their ability to forecast the market should be better than ours, and let us do all we can to back them up, to bolster up their enthusiasm, and trust that their hopes are well founded.

It is unfortunate that when we are putting forth a new deal on our own products, we are again confronted with a super high-pressure deal from the West Tooth Brush organization. Their newest one is that with every gross of brushes sold they give fifty brushes free, suggesting to the druggist that he distribute these fifty brushes to fifty dentists, or sell the brushes and use the money to advertise his own store. With every gross of tooth paste sold, 72 tubes free for the same purpose as above. Such deals as these might well be investigated by the Price Spreads Commission I should say, for they are surely disastrous to the entire business structure. However, as that organization has been putting on deals like this, or similar ones, for the last eight years, the druggists must be satisfied with them or they could not continue.

The prices to the druggists on the new Hutax products are as follows:

Hutax Tooth Brush	\$1.80 per dozen
Hutax Tooth Paste	1.82 "

This provides the druggist with a profit of 66%, a very generous

one, and McGillivray Bros. feel that this will be the factor in increasing our sales.

In closing I can only express the hope that our earnest endeavors to assist McGillivray Bros. to provide a satisfactory product at a reasonable price, and the enthusiasm of every member of that firm along with the ability of their staff of salesmen, will bring about a satisfactory improvement during the coming year.

Harry S. Thomson.

Canadian Oral Prophylactic Association

HARRY S. THOMSON, D.M.D., L.D.S.
GENERAL EXECUTIVE AND EDUCATIONAL
DIRECTOR

OFFICE OF THE SECRETARY
86 BLOOR ST. W.,

TORONTO, ONT., May, 4th, 1934

Dear Doctor:-

The Annual Meeting of the Canadian Oral Prophylactic Association will be held, Monday evening May 14th., 1934, at the Hotel Empress in Toronto, 1175 Bay St., Toronto, At 8.15 P.M. to hear the Reports of the Officers, Election of Officers for 1934, and discussion of General Business.

Besides the special business of the meeting, matters of extreme importance to every member will be discussed.

The President and officers hope that no one will allow anything to interfere with his attendance at this meeting.

Please phone the Secretary at once, Singapore 1212, letting him know if you will be present.

Sincerely yours,

H. Neil Butler, Pres.

J. J. Brinkley, Secy.

THE CANADIAN ORAL PROPNYLACTIC ASSOCIATION

Minutes of an Executive meeting, of The Canadian Oral
Propnylactic Association held in the Graduates' Dining
Room, Hart House, University of Toronto, on May 16, 1935.

Present - Mr. T. A. McGillivray, Mr. Malcolm McGillivray, and Mr. Johnston,
representing McGillivray Bros. Ltd., Mr. Gordon representing
G-K-G-L Broadcasting Co.

Drs. Fisk, Trotter, McKulkin, Gausby, Thomsen, Broughton,
McDonagh, Grieve, of the C. C. P. A.

Mr. T. A. McGillivray introduced Mr. Gordon, of the
Metropolitan Broadcasting Co., to present his proposal to
advertise Hutax by broadcasting. He invited members to go with him
to the rooms of CKCL, where a short broadcast of what he proposed
to put over the air was presented to us. All members expressed
themselves as impressed by the proposition and individually
approved the broadcast.

The meeting was adjourned.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of the Annual Meeting of the Canadian Oral Prophylactic Association held Friday February 1st, 1935, in the Club rooms, Physicians and Surgeons Building, 86 Bloor St. W., at 7.30 P.M.

PRESENT - Drs. McDonagh, Trotter, McMulkin, Thompson, Broughton.

Dr. Broughton read the notice calling this meeting.

The Secretary read the minutes of the last meeting.

Dr. E. A. Grant,

Secretary, The Canadian Dental Hygiene Council,

Suite 270, 86 Bloor St. W., Toronto 5.

Dear Dr. Grant:

I have been instructed to advise you that the Canadian Oral Prophylactic Association, at its Annual Meeting January 18th. 1926, placed at your disposal the services of our Dental Executive, Dr. Harry S. Thomson, for the purpose of promoting educational and oral health programmes of the Canadian Dental Hygiene Council.

This was a resolution in line with a similar one passed at our annual meeting a year ago, which decided that we discontinue our former educational programme, that it might better be carried on through this form of co-operation with your Council.

I remain,

Yours very truly,

Sec'y.

AJB/F.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION.

CANADIAN ORAL HYGIENIC ASSOCIATION

Canadian Oral Hygienic Association, Toronto, May 30, 1936.

At a meeting held at the Medical Arts Building on Tuesday night last to give consideration to C.O.H.A. affairs, the following dentists were present:

Dr. McDonagh ✓
Dr. Kukulkin ✓
Dr. Morgan ✓
Dr. Grieve ✓
Dr. Fiske ✓
Dr. Charlie McLean
Dr. Bean ✓
Dr. Broughton ✓

Considerable discussion centred around a change in the design and quality of the Mutax Tooth Brush. The following decisions were recorded as to whether the handle of the brush should be straight or offset.

8125
Dr. Kukulkin voted - straight
Dr. McDonagh - either
Dr. Morgan - straight
Dr. Grieve - no vote
Dr. Fiske - straight
Dr. McLean - offset
Dr. Bean - offset
Dr. Broughton - straight

Re. two or three row bristles

Dr. Kukulkin - both
Dr. McDonagh - "
Dr. Morgan - two row
Dr. Grieve - two row
Dr. Fiske - both
Dr. McLean - two row
Dr. Bean - both
Dr. Broughton - "

Re. Bristle length

All agreed on 3/8 to 7/16" in length.

Trimming - To be straight or slightly shorter at the brush end.

Price - All voted that if possible it be sold at 40%.

Handle - 3/4" longer than present straight handle model.

Harry S. Thomson.

Sincerely yours

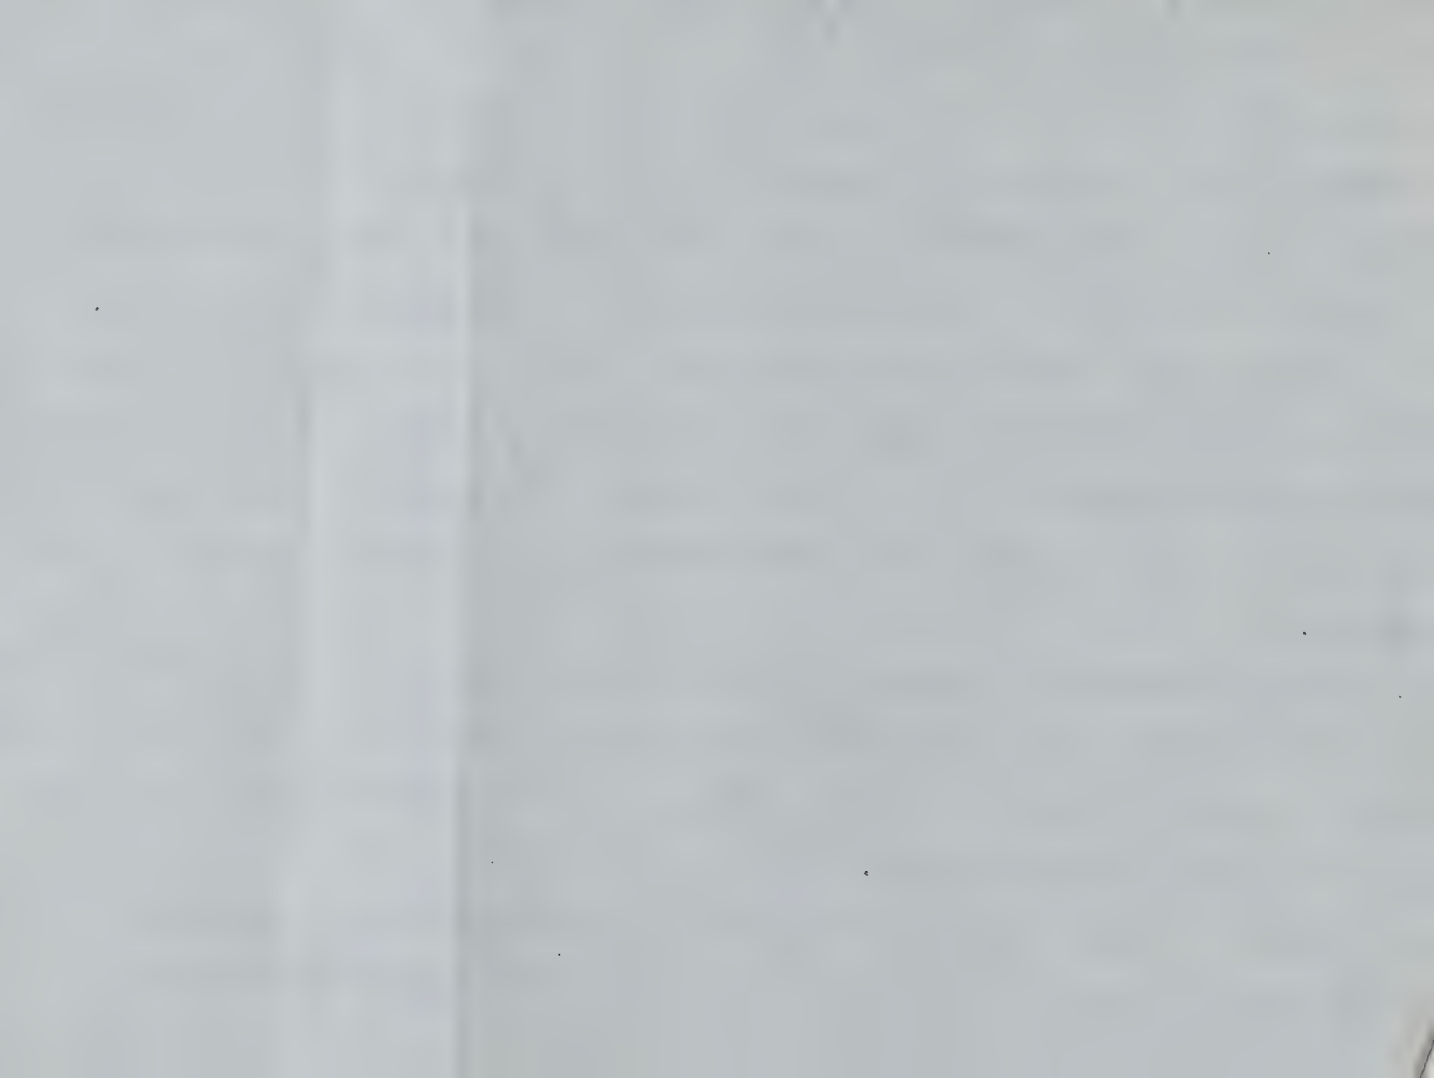

W.Cecil Trotter, Pres.,

A.J.Broughton, Secy.

Dr. Thomson dental Executive followed with his report covering the seven months of his service from June 1st to Jan'y 1st. He reviewed the organization as he found it and suggested the linking up of modern business methods with our present high ideals in order to succeed and expand as we desire to. He explained the changed formula of the Hutax Paste and told how it had been brought up to the standard of the latest scientific thought. The Hutax Brushes have been causing us some trouble on account of the unreliability of some makes, this condition he informed us was now being corrected and he was now negotiating with several firms for a new source of supply. High prices and poor supply were two very serious matters he was now trying to adjust.

Dr. Thomson reviewed the history of our dealings with the Lambert Pharmacal Co. and the appointing of them as our agents in the United States and stated that he had placed an order with Kent's & Sons, England, for a supply of Brushes for the United States Business.

The report also dealt with the work done by the Educational Department, charts and circulars sent out, lectures and lantern slides provided and

MINUTES of the Annual Meeting of The Canadian Oral Prophylactic
Association held at the Club rooms of the Medical Arts Building,
Toronto, on Friday January 15, 1937, at 8 P.M.

PRESENT,- Drs, Thomson, Trotter, McDonagh, Grieve,
Fiske, Broughton, Willmott/

The Secretary read the notice calling the meeting.

The Secretary read the minutes of the last Annual Meeting.

The meeting discussed the affairs of the Hutax brush, and the reasons why
the new brush had not been made up. During the year we received a letter
from McGillivray Bros. stating that the bristles in the Hutax brush were
the best money could buy.

The committee reported progress and decided to carry on.

The Secretary-treasurer read the financial report.

Dr. McDonagh moved, seconded by Dr/ Willmott that the report be adopted.

CARRIED.

It was moved that a resolution of condolence be sent to Mrs. Webster,
Dr. Baird and Mrs. Burden.

It was moved by Dr. Broughton, seconded by Dr. Grieve that the meeting
adjourn until after the meeting of the Special Committee.

According to the Annual Statement issued by the Auditor for 1938, it shows that the Canadian Oral Prophylactic Association owes to Dr. Harry S. Thomson \$6,275 as back salary for services rendered. (For part of this amount, \$4,775, cheques had been issued, but as no funds were available they are now held by Dr. Thomson. A further item of salary for 1937 of \$1,500 for which no cheques were issued is shown on an entry on the books of the Association.)

The purpose of this letter is to verify that the Canadian Oral Prophylactic Association owes this amount to Dr. Thomson and accepts this statement as its liability to him. Cheques will be cashed by Dr. Thomson against this amount as funds of the Association are available, and each year the amount of the balance will be verified and billed up to date at the Annual Meeting of the Canadian Oral Prophylactic Association. This statement is made so that all old cheques held by Dr. Thomson may be destroyed, and the above statement to be incorporated in the books of the Canadian Oral Prophylactic Association as of December 31st, 1938.

THE CANADIAN ORAL PROPHYLACTIC ASSOCIATION

A meeting of the Executive Committee of the Canadian Oral Prophylactic Association was called for June 21st, 1939 at the Diet Kitchen. Cwing to the death of two of the members, the necessary quorum required the presence of the remaining three members. Certain business was pressing for attention and a time could not be selected when all three could be present, so the Secretary asked Drs. McDonagh and Grieve to attend.

Those men along with Dr. Harry S. Thomson sat in with Drs. Broughton and McMulkin as an Emergency Committee, which Committee would suggest, that the Executive Committee, if it sees fit, ratify the business transacted as set forth in the minutes following herewith;

Present at the meeting were Drs. McDonagh, Grieve, Thomson, McMulkin, Broughton,

It was moved by Dr. Broughton, 2nd by Dr. McDonagh that Dr. Grieve act as chairman. Carried.

It was moved by Dr. Broughton, 2nd by Dr. McMulkin, that Dr. Thomson's resignation as Dental Executive be accepted.

It was moved by Dr. McDonagh, 2nd by Dr. McMulkin, that Dr. Harry Thomson be appointed an active member.

It was moved by Dr. Thomson, 2nd by Dr. McMulkin that Dr. Grieve and Dr. McDonagh be asked to become members of the Executive, to fill vacancies on the board. Carried.

It was moved by Dr. McMulkin 2nd by Dr. Thomson that Dr. McDonagh be appointed President to fill the vacancy caused by the death of Dr. Trotter. Carried.

It was moved by Dr. Thomson 2nd by Dr. Grieve that letters of condolence be sent to Mrs. Trotter and to Arthur and Bill Gausby.

It was suggested that we have a meeting of the Association the latter part of September or October.

It was moved by Dr. Broughton that the meeting adjourn.

Carried.

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of the Executive Meeting of the Canadian Oral Prophylactic Association held at the Honey Dew, on July 6th 1939.

Those present were - Drs. McMulkin, Fisk and Broughton.

It was moved by Dr. McMulkin 2nd by Dr. Broughton that the minutes of the Emergency Committee Meeting held June 21st 1939 and presented to the meeting be ratified, adopted and incorporated in the minutes of this Edecutive.

CARRIED

The meeting then adjourned.

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of the Executive Meeting of the Canadian Oral Prophylactic Association held at the Diet Kitchen, on October 1st 1939 at 12.30 P.M.

Those present were - Drs. Fisk, Griev, McMulkin, Thompson, McDonagh, and Broughton.

Dr. McDonagh acted as chairman.

Dr. McDonagh lead the discussion of plans regarding the future welfare of the association, and suggested the sending out of a personal letter to the profession.

A general discussion followed on the prospects of interesting the profession in Hutax products.

The meeting adjourned at 2 P. M.

THE HISTORY OF THE
REIGN OF KING CHARLES THE FIRST
IN THE YEAR 1649

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of the Executive meeting of the Canadian Oral Prophylactic Association held at the Diet Kitchen on December 12th, 1939, at 12.30 P. M.

Those present were - Drs. McDonagh, Grieve, McMulkin, Thompson, Fisk, and Broughton.

The Secretary read the minutes of the last meeting.

Dr. McDonagh read a number of letters received in reply to the circular letter sent to the profession. The Committee were impressed by a letter from Dr. Sloan of Weston. The Secretary was instructed to write Dr. Sloan and see if he would sit in at one of our meetings and perhaps with his experience we might work out some plan or solution for our problem.

Dr. Fisk suggested that we invite the Graduation Class to a dinner meeting and inform them of the aims and objects of the C. O. P. A. and the advantages of using and advising the Putax products. The idea met with the approval of the Committee, but decided to leave it for further consideration.

The meeting then adjourned.

A handwritten signature in dark ink, appearing to read "McDonagh", is written over the typed text of the minutes.

1. The first part of the report deals with the general situation of the country and the progress of the work during the year. It is divided into two main sections: the first section deals with the general situation of the country and the progress of the work during the year, and the second section deals with the specific results of the work.

2. The second part of the report deals with the specific results of the work. It is divided into three main sections: the first section deals with the results of the work in the field of agriculture, the second section deals with the results of the work in the field of industry, and the third section deals with the results of the work in the field of commerce.

3. The third part of the report deals with the conclusions and recommendations. It is divided into two main sections: the first section deals with the conclusions and the second section deals with the recommendations.

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of the Executive meeting of the Canadian Oral Prophylactic Association held at the Hotel Embassy on January 15th, 1940, at 12.30.

Those present were; Drs. McDonagh, Grieve, Thomson, McMulkin, Fisk and Broughton.

It was moved by Dr. Fisk, seconded by Dr. Grieve that Dr. Thomson convey to McGillivray Bros. our appreciation of their efforts in sending out blotters but to explain to them how impossible it was for a dentist to sign such a letter.

Also Dr. Thomson was asked to inquire regarding the price of prescription pads for dentists.

The matter of holding a dinner for the Graduating class to keep them informed on the history of Huta was discussed but left in obedience. Dr. Fisk was to inquire from Dr. Mason if there would be any objection.

The meeting then adjourned/

HARRY S. THOMSON, D.M.D., L.D.S.
DENTAL EXECUTIVE AND EDUCATIONAL
DIRECTOR

OFFICE OF THE SECRETARY
86 BLOOR ST. W.,

TORONTO, ONT., — April 10/39 — 192

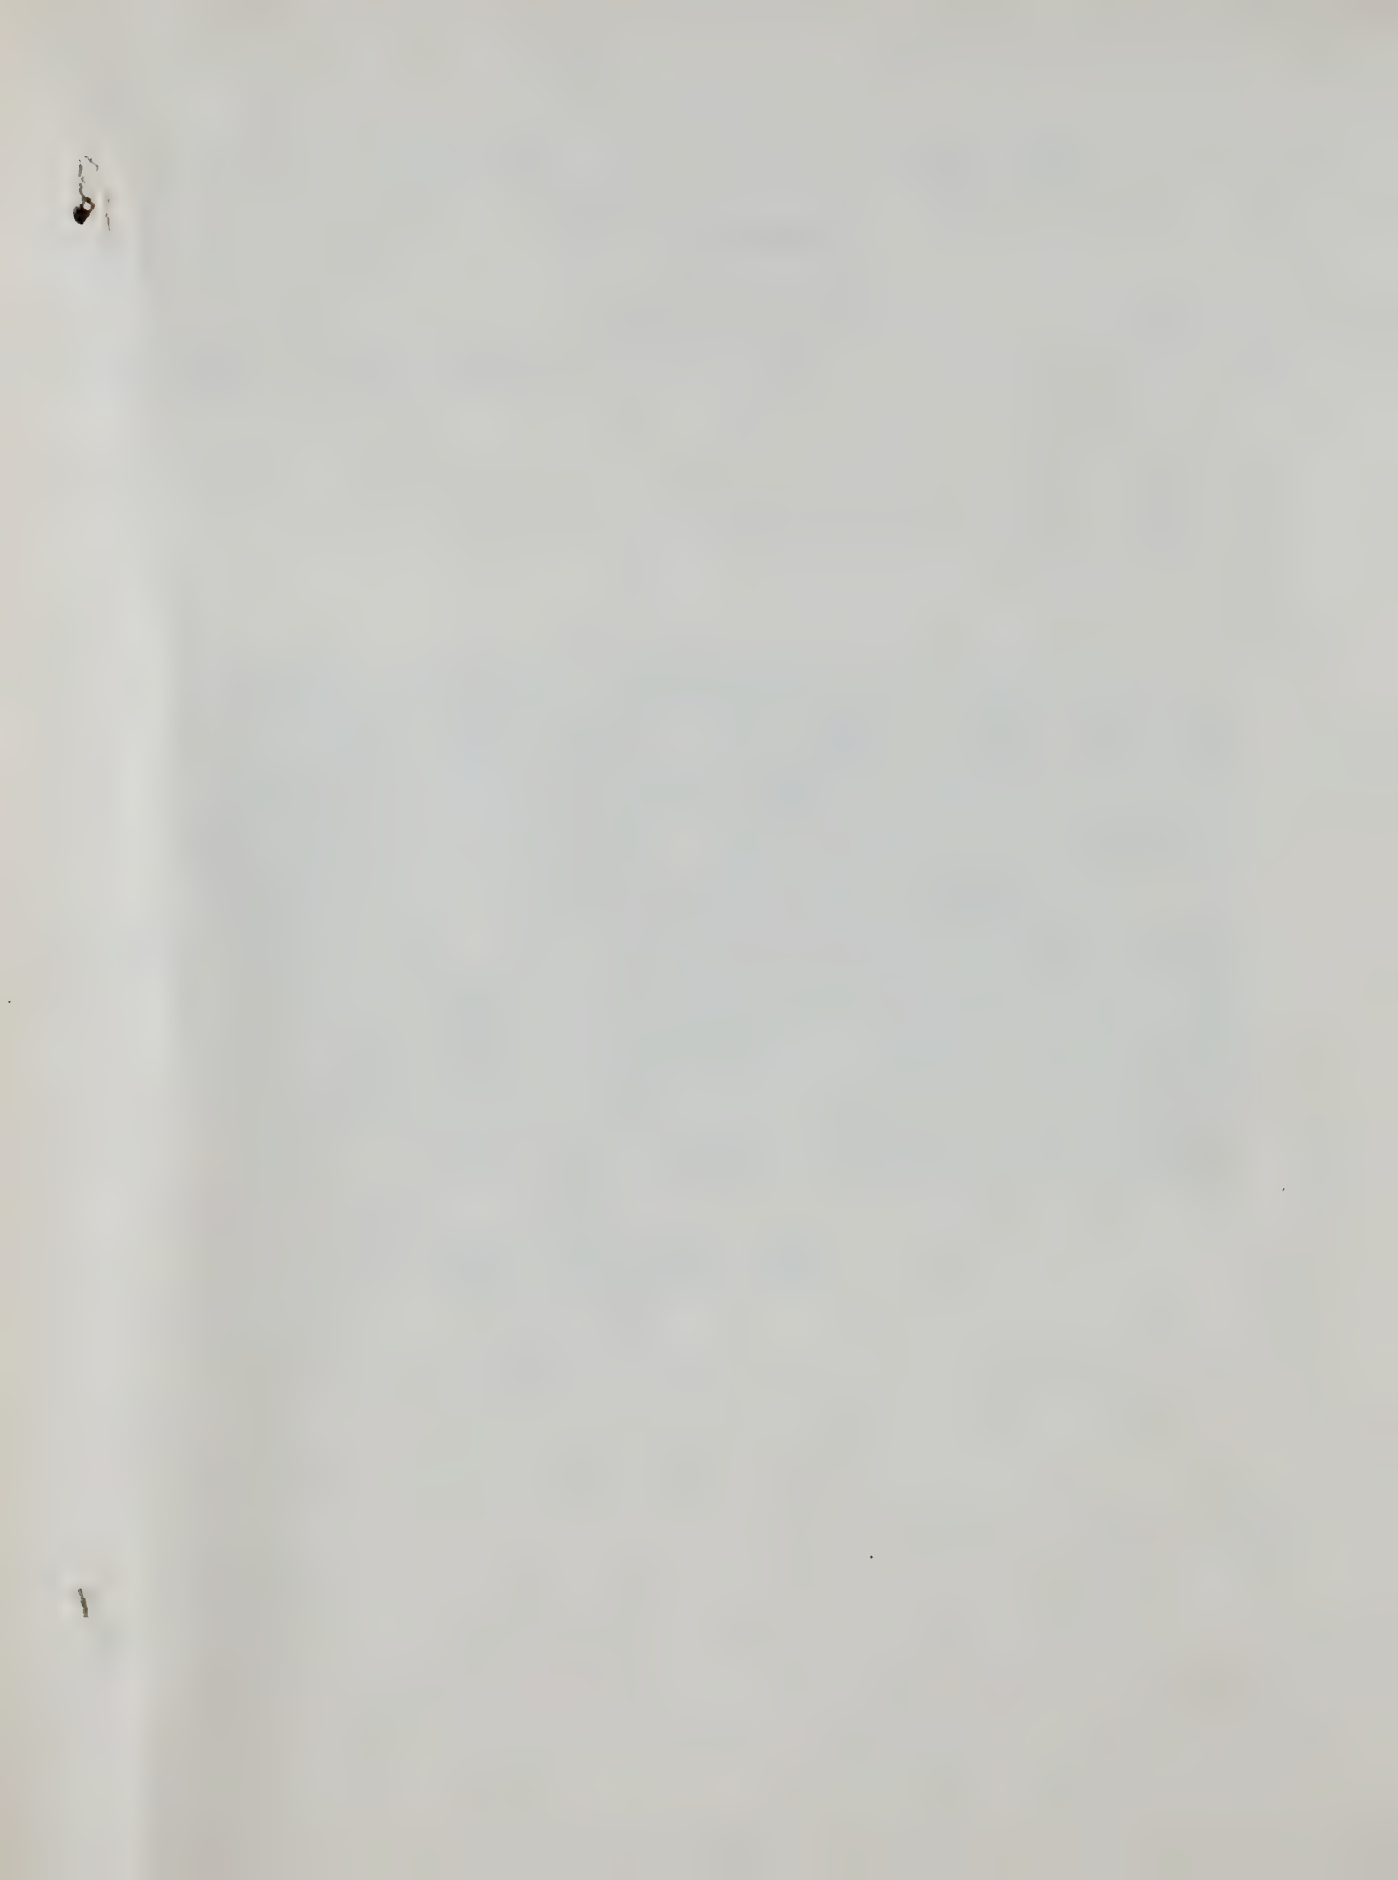

According to the Annual Statement issued by the Auditor for 1938, it shows that the Canadian Oral Prophylactic Association owes to Dr. Harry S. Thomson \$6,275 as back salary for services rendered. (For part of this amount, \$4,775, cheques had been issued, but as no funds were available they are now held by Dr. Thomson. A further item of salary for 1937 of \$1,500 for which no cheques were issued is shown on an entry on the books of the Association.)

The purpose of this letter is to verify that the Canadian Oral Prophylactic Association owes this amount to Dr. Thomson and accepts this statement as its liability to him. Cheques will be cashed by Dr. Thomson against this amount as funds of the Association are available, and each year the amount of the balance will be verified and billed up to date at the Annual Meeting of the Canadian Oral Prophylactic Association. This statement is made so that all old cheques held by Dr. Thomson may be destroyed, and the above statement to be incorporated in the books of the Canadian Oral Prophylactic Association as of December 31st, 1938.

Signed

Mrs. Andrew J. McDonagh
37 Prince Arthur Ave.
Toronto, Ontario

Dear Mrs. McDonagh-

The Board of Directors of the Canadian Oral Prophylactic Association held a meeting this week, which was one of the very rare occasions in the Association's history when its founder -- our dear friend Andrew -- was not present. We all feel keenly his absence from our midst, and I have been instructed to convey to you and your family the heart felt sympathy of all the members of the Association throughout the Dominion in your great bereavement.

The members of the Board feel that they are now facing the biggest problem in the Association's history -- to find a leader capable of directing its activities.

Very sincerely yours

Secretary

minutes of meeting of April 6th 1942 - continued
moved by Dr Guine 2nd Dr Broughton that the

meeting Adjourned

Minutes of a dinner meeting of the Executive and Advisory Committees and Guests held at Hart House March 21st¹⁹⁴¹ at 6.15 P. M.

Those present were - Drs. McDonagh, Grieve, Fisk, Thomson, Amy, Crouch, Dawson, Arneld, Soules, Husband, Knapp, Lescoe, Hess, Veitch, Yale, Ball, Bliss, Black, Grant, Snell, Leuty, Hendry, R.G.Ellis, Rex, Coyne, Flora, Guest, Gullett, Higgins, Johnston, Lapp, MacGregor, McLean, Marsh, Marshall, Reid, Twible, Williams, Willmott, Thomas, Derbyshire, Dayment, and Mr. McGillivray.

Dr. Higgins Read a broadcast put on ~~by~~ over CBC at 5 P.M. to-night.

After dinner the meeting adjourned to the North Common Room. Dr. McDonagh opened the meeting by reviewing the success of the Dr. Waugh meeting, after which Mr. McGillivray explained to the meeting the advantages of the Mutax brush and paste. He promised that if there was a demand for a two-row brush they would manufacture it.

A vote of thanks was given by Dr. Grieve to Mr. McGillivray for coming to us to-night.

Dr. McDonagh spoke of the membership campaign and asked for prospective active members.

Dr. Fisk introduced the suggestion of the Executive that a dental film be produced demonstrating proper methods of brushing the teeth, and asked for ideas from those present /

Dr. Grant then put on the screen a picture of the E.C.D.H. Council called Bobby's Bad Molar. Dr. Fisk and Dr. Thomson were asked to add to their "film committee members if they think it necessary.

The meeting then adjourned

Minutes of Executive meeting of C.C.P.A. held at noon April 15th¹⁹⁴¹ at Gordy's . Those present were Drs. McDonagh, Grieve, McMulkin, and Broughton.

Discussed working for proposed membership certificate, and decided to leave it to a further meeting.

Moved by Dr. McMulkin, seconded by Dr. Grieve that the bill for stationary be paid.

Moved by Dr. McMulkin, seconded by Dr. Grieve that Dr. McDonagh's secretary be provided with a filing desk. CARRIED

The appointment of new active members to bring our number to 29 as specified in the Charter was discussed and decided to postpone till next meeting. In the meantime the members should keep their eyes open for suitable candidates.

The meeting then adjourned.

Minutes of Executive meeting of the C.O.P.A. held at Dr. McDonagh's office Feb. 28/41.

Those present were Drs. McDonagh Grieve McMulkin Broughton.

It was moved that Dr. McDonagh's acc't. re Waugh dinner be paid -2nd by Dr. McMulkin.

The wording for the prescription pads was decided upon - Dr. McDonagh to send it to McGillivray Bros.

The meeting then adjourned.

Minutes of Executive meeting of the C.O.P.A. held on March 3rd 1941 at Dr. McDonagh's office.

Those present were Drs. Grieve, McMulkin, Fisk, Broughton.

Dr. McDonagh read a letter from Mr. Beavers of the Challies Dental Products and after discussion it was decided to reject his ~~offer~~ proposition.

It was moved that the Waugh expense accounts of Drs. Grieve, McDonagh and Thomson be paid.

Dr. Fisk suggested a committee of 3 to consider the matter of getting new members and report to a meeting of the Advisory Committee. It was also suggested Mr. McGillivray be invited to this meeting to give a talk on Hutax products.

Moved by Dr. Broughton, 2nd by Dr. Grieve that Drs. Fisk and Thomson be a committee to prepare a script for a moving picture on the proper way to brush the teeth and report progress at next meeting. CARRIED
The meeting then adjourned.

Minutes of C.O.P.A. Executive meeting held on March 11th in Gordy's restaurant at 5.30P.M.

Those present were - Drs. McMulkin, Grieve, McDonagh Broughton.

The Secretary presented the membership lists and it was decided to revise them and bring them up to date before launching a new membership drive.

It was decided to call a meeting of the Advisory Committee and the Executive to report on the success of the Waugh meeting and to get advice and suggestions regarding the future programs, to hear a report on the Hutax products from Mr. McGillivray, a report from Dr. Fisk re dental film and to get suggestions regarding a proposed new member campaign. This meeting to be held the following week.

The meeting then adjourned.

T. L. MARSH, D.D.S.

2 COLLEGE STREET

TORONTO

Memorandum for Dr. A. J. Broughton of ~~the~~ remarks of Dr. T. L. Marsh, at C.O.P.A. meeting at the King Edward Hotel, January 20, 1941.

It is a great honor and privilege to be afforded this opportunity to express in this distinguished gathering my unqualified approval and support of the work of the C.O.P.A., particularly as it applies to their present project of bringing to the attention of the dental profession of Canada dentifrices and tooth brushes which both scientifically and ethically merit their whole hearted support.

I am keenly cognicent of the great responsibility that is mine in presuming at this time, to express the attitude of the younger members of the profession towards the C.O.P.A. and its present aims. As it has been a time honored privilege of the younger members of any organization to criticise freely among themselves the policies and methods of their seniors, I feel it to be my duty to bring to your attention a most severe criticism directed against the policy during these latter years of the C.O.P.A. executive. The criticism is this, that having an organization that has contributed so effectively to the progress of dental public health and research in the past they have nevertheless been so remiss in bringing to the attention of the younger members of the profession information relative to their organization, that it is doubtful, if prior to the informative letters that we all received a few weeks ago, that any of the younger members of the profession were even aware of the existance let alone the aims and policies of the C.O.P.A. If this omission in the past was to any extent due to a feeling that the newer generations of dentists are less keenly interested in the development of public dental health or the progress of dental research than their elders have been then surely that misapprehension will have been corrected by the attendance at this evening's meeting of which I am sure fully 60% of the audience would fall within the category of the younger generation.

The two questions which are most prominent in the minds of the younger men when it is proposed that the official support of the profession be given to commercial articles are, first are the articles scientifically worthy of professional support and secondly, is the relationship between the C.O.P.A. and the commercial organization an ethical one. I am happy to say that I am personally

T. L. MARSH, D.D.S.

2 COLLEGE STREET

TORONTO

- 2 -

satisfied after careful consideration that the answer to both these questions is an unequivocal yes.

From a scientific point of view the formulas and designs have been developed by and are constantly subject to a controlling group of Canadian dentists of unquestionable scientific and professional standing. In the second place we have in this City in the Pediatrics Research Foundation supported in large measure by royalties upon products marketed by the Meade Johnson Co. and the Banting Institute supported by the proceeds of licenses granted relative to the manufacturing and distribution of insulin which conclusively demonstrate the tremendous possibilities for constructive efforts in the field of public health and scientific research which such an ethical partnership between business and professional interests can make possible.

Therefore it gives me great pleasure to assure the executive of the C.O.P.A. that once the facts relative to the policy and aims of their association are known to the younger generations of dentists they can be assured of their unqualified approval and their whole hearted support.

T. L. Marsh.

CANADIAN ORAL PROPHYLACTIC ASSOCIATION

Minutes of the meeting of the Executive and Waugh Committee of the C.C.P.A. held at the Dist. House on Dec. 21st at 8.30 P.M.

Those present were - Drs. McDonagh, Fisk, MacGregor, Woellatt, Perkis, Ellis, Philp, Higgins, and Broughton.

It was moved by Dr. Woellatt/ 2nd by Dr. Broughton that new stationary be bought and this to have the names of the Advisory Committee added to it.

It was moved by Dr. Woellatt, 2nd by Dr. Perkin that Drs. MacGregor, Fisk, and McDonagh be a committee to look after the letters and invitations.

Dr. R. J. Ellis offered to check up on the local societies regarding the joining of the members for an estimate on how many would be attending. Dr. McDonagh asked Dr. Higgins to assist if help was needed.

Dr. Woellatt offered to see that an invitation was extended to the 4th and 5th year students and to see how many could be expected. Dr. Higgins offered to do likewise to the Dental Nurses and Assistants Association.

It was moved by Dr. Philp, 2nd by Dr. MacGregor that Dr. McDonagh act as chairman and that he secure some member to explain the principles and objects of the C.C.P.A. and to introduce the speaker.

The meeting then adjourned.

Minutes of the Executive meeting of the C.C.P.A. held on Jan. 10th.
Those present - Drs. McDonagh, Grieve, Mc Mulkin, Thomson, Fisk, Broughton.
It was decided to leave the dinner arrangements to the Orthodontia Club.

Dr. Thomson was to look after the microphone and loud-speaker.
Dr. Vernon Fisk and Dr. Thomson were to look after the customs and film equipment.
It was suggested having Dr. Fisk interviewed by the press some time during the day.
A meeting was to be called for Wed. Jan. 14th at Hart House 6 P.M.

Minutes of the Joint Meeting of the C.C.P.A. Executive and Advisory Board for the Waugh Dinner, held at THE Diet Kitchen on Thursday Dec. 12th at 6.30 P.M.

It was suggested by Dr. Perkins that the Profession be invited by phone. And Dr. Ellis suggested that those phoning be acquainted with those they phone.

Dr. Guest felt that McGillivray Bros. should see that the goods are ready to supply the Druggist.

It was suggested that the Executives of the Different local organizations be contacted by the C.C.P.A. Dr Higgins felt that new men should be sent to interview the different city organizations not the same faces as always before.

Dr. Philips consented to phone the Presidents of the local organizations to find when the Executive meetings are to be held and ask if a C.C.P.A. representative might address them re the Waugh meeting.

The meeting then adjourned.

CANADIAN ORAL ENCEPHALACTIC ASSOCIATION

Minutes of the meeting of the Executive of the C.O.E.A. together with the newly appointed advisory committee, held at Hart House on Dec. 3rd at 6.30 P.M. 1940

Those present were - Drs. McDonagh, Grieve, Fisk, McMulkin, Broughton. Advisory Committee - Drs. Cowling, Coyne, A. Ellis, Gulltett, McGregor, Marsh, C.E. Pearson, G. Perkins, W.W. Philp, H. Reid, M. Twible, C.H. Williams, and W. Willmott.

Drs. McDonagh, Thompson, and Fisk addressed the meeting telling of the accomplishments of the C.O.E.A. in the past, and what could be accomplished if the profession got behind the Huxax products. The meeting was then thrown open for general discussion by the chairman asking advice and criticism.

Dr. Marsh suggested giving the Provincial organization part of the Royalty according to the sales in their province.

Dr. Marsh also suggested sending a letter to the profession enclosing a membership card or certificate and asking for the \$1.00 fee. Dr. Williams suggested as an inducement to become a member, that membership entitle members to get brushes at cost, for demonstration to patients.

Dr. Willmott suggested a cheaper brush.

Referring to the Waugh meeting Drs. Grieve and Philp thought the admission should be free.

Dr. Coyne, 2nd by Dr. Grieve, moved that a recommendation be sent to the Board of the C.O.E.A. that admission to the Waugh meeting be confined to members of the profession, their wives and 4th and 5th year students at the College. CARRIED

It was moved by Dr. Thomson, seconded by Dr. Willmott, that the chairman, Dr. McDonagh, appoint a committee to act in conjunction with the Board of the C.O.E.A. to formulate plans for the Waugh meeting.

The meeting then adjourned.

Minutes of the Executive meeting of the C.C.P.A. held on Nov. 5th, at 12.30 P.M. at Gordy's Restaurant.

Those present were - Drs. Fisk, McDonagh, Grieve, Broughton, and McMulkin.

Dr. McDonagh read letters from Dr. Lyman Waugh of New York agreeing to come to Toronto and deliver a lecture on January 4th, 1941.

A discussion followed on Dr. Waugh's letter regarding topics for him to cover, and instructions given to Dr. McDonagh on a letter to be written to Dr. Waugh.

After making further arrangements for this meeting the meeting adjourned.

Minutes of the Executive meeting of the C.C.P.A. held Nov. 19, 1940 at 12.30 P.M. at Gordy's Restaurant.

Those present were- Drs. McDonagh, McMulkin, Grieve, Fisk, Broughton.

The Committee reported on Dr. McDonagh's letter.

Dr. Fisk reported on a conversation he had had with Dr. Harold Rex suggesting the use of solution C in a mouth wash to be called Hutax C. We decided to take up this matter later.

An advisory committee was selected.

It was moved that Dr. M. S. Coyne be appointed an active member. Seconded and Carried.

The meeting then adjourned.

at 12.30 P.M. in Gordy's Restaurant.

Those present were - Drs. McDonagh, McMulkin, Grieve, Fisk, Broughton,
and Thomson.

Dr. McDonagh suggested sending a letter to all the dentists and holding
a meeting of the Toronto dentists having Dr. Waugh of New York as guest
speaker.

Dr. McMulkin moved that this meeting be held in January.

Seconded by Dr. Grieve. CARRIED

It was moved that a committee of three, Dr. McDonagh, Dr. Fisk, and Dr.
Grieve, outline plans for this meeting and report back to the executive
committee as soon as possible. CARRIED

Dr. McMulkin volunteered to report at the next meeting any suggestions
regarding the proposed scheme to make a Hutax advertising campaign test
in some smaller Ontario town.

The meeting then adjourned.

By-Law # 3 of The Canadian Oral Prophylactic Association.

CLASSES OF MEMBERS

The Association shall be composed of three classes of members - Class 1, Honourary members - Class 2, Associate members - Class 3, Members. In the by-laws where the word "members" is used, it shall be deemed to include only the persons mentioned in Class 3.

1. Honourary members shall be elected after recommendation from the Board of Directors at any general meeting.
2. Associate members shall be elected by the Board of Directors from among ethical dentists upon payment of a fee of \$1.00.
3. Members may be elected by the Board of Directors from among ethical dentists upon payment of \$25.00.

It shall be the duty of the Directors to maintain the membership in the number of shareholders of the original Association. (29) Such members shall be elected by the Board of Directors from the Association members without fee.

Canadian Oral Prophylactic Association

Minutes of the Executive meeting of the Canadian Oral Prophylactic Association held at the EMBASSY Hotel on February 27th at 12.30.

Those present were - Drs. McDonagh, Fisk, McMulkin, Grieve, and Broughton.

Dr. McDonagh reported the findings of the meeting of the Research Foundation regarding the toothbrush recommended for the use of the Army.

Dr. Fisk moved that we recommend to McGillivray Bros. the C.C.P.A. brush to be altered to conform to the recommendations passed by the Foundation meeting. Seconded by Br. McMulkin.

Carried.

The meeting adjourned.

Minutes of the Executive meeting of the Canadian Oral Prophylactic Association held at the Embassy Hotel on April 1st, ¹⁹⁴⁰ at 12.30.

Dr. McDonagh presented to those present a toothbrush prepared by Dr. Chas. Pearson with a spoon attachment on the handle and which Dr. Pearson felt would be an improvement and selling feature if added to the Hutax brush.

Moved by Dr. Fisk, 2nd by Dr. Grieve that while we considered the innovation an excellent and novel arrangement, due to the extra cost of having new dies made and in consideration of the present state of our finances we could not at the present time afford to make the change.

Carried

Dr. McDonagh read a letter to Col. Lott from Dr. Grant giving the specifications of the brush recommended for use in the Army.

Moved by Dr. Fisk, 2nd by Dr. Grieve that we do not charge royalties on the Hutax paste sold exclusively to the Troops.

Dr. Thompson was asked to see McGillivray Bros. regarding changes in the C. O. P.A. Brush to bring it up to the specifications recommended by Dr. Grant's letter.

Dr. McMulkin moved the meeting adjourned.

CARRIED.

Minutes of the Meeting of the Board of Directors, together with the Advisory Board of the Canadian Oral Prophylactic Association held at Hart House, Tuesday, April 28th, 1942.

Present: Drs. Box, Bothwell, Coyne, A.W. Ellis, R. G. Ellis, Flora, Morton, Marsh, Pearson, Perkin, Harvey W. Reid, Thomas, Woollatt, Willmott, Fisk, McMulkin, Broughton.

Guests present: Diprose, Doan, Large, McDonald J.B., Martin, Purves, Trelford, Yule.

Moved by Dr. Thomas, seconded by Dr. Coyne that the Secretary be instructed to write to Dr. W. W. Philp and Capt. E. T. Guest conveying the best wishes and congratulations of this Association on their enlistment in the Canadian Dental Corps. Carried.

Dr. Fisk asked the new members to stand while he read the aims of the Association to them. Moved by Dr. Harvey Reid, seconded by Dr. R. G. Ellis that these be added to the Advisory Board: Drs. O. S. Clappison, R. E. Diprose, F. Doan, K. Harris, G. W. Johnston, V. Large, J. B. McDonald, F. Martin, C. O'Brian, J. D. Purves, L. Rollaston, J. Trelford, O. Yule.

The Secretary read the minutes of the last Joint Meeting, March 21st, 1941.

The Secretary read a letter of sympathy to Mrs. McDonagh.

BUSINESS ARISING FROM THE MINUTES:

Re Dental Film -- Drs. McMulkin, Williams and Martin were appointed a Committee to consider the feasibility of producing a new film.

Moved by Dr. McMulkin, seconded by Dr. Ellis that Drs. Coyne, McGregor and Perkin be a Committee to consider the advisability and possibility of producing a new brush.

Dr. Harold Box gave a short talk on Dental Caries, the formation of Calculus and briefly outlined the five uses of the Lingual Brush.

The Secretary presented the Financial Report for 1941 and a summary of the finances up to March 31st, 1942, copy of which is appended.

Dr. McMulkin presented a statement of Receipts from Royalties on Hutax Products and expenditures on education, charity and research since 1907, illustrating by the use of a graph.

The members then discussed the active campaign presented by the Chairman, a copy of which is appended.

Dr. Marsh suggested advertising in The Journals re the merits of the products.

Dr. Roy Ellis suggested Radio Advertising.

Dr. Pearson asked if we could not have the soldiers use Hutax Brushes.

Dr. Holmes suggested that when talking to our patients we impress on them that the Royalties going into Research is for the good of the patient and the public in general.

Dr. Flora suggested a Clinic be given at the Convention on the proper brushing of the teeth using the Hutax Brush. Dr. Coyne being named by the Meeting to give this Clinic if can be arranged.

Dr. Coyne suggested contacting the outside dentists i.e. Hamilton, Guelph, etc.

Dr. Yule advised articles in the Dental Journals showing the good points of the Hutax Products.

Dr. Morton thought we have not sufficient data on the superiority of Hutax over competing products to combat the arguments to be raised by the individual dentists and suggested postponing the campaign until the advisory board are better posted.

Dr. Fisk, The Chairman, thought it advisable to postpone the Campaign for at least one month and in the meantime the Board see that the Advisory Committee be informed regarding the formulas of the Hutax Products, the aims of the Canadian Oral Prophylactic Association, and a history of what it had accomplished in the past.

Moved by Dr. Coyne, seconded by Dr. Reid that this Campaign be postponed. Carried.

Dr. Diprose suggested spending some of our surplus in sending samples of Hutax to every dentist.

Dr. McMulkin suggested sending literature to every dentist in Canada to prove our claim that the Hutax products are the best on the market.

Dr. Harvey Reid claims we have not sold our product to the dentist, personally he does not like the taste.

Dr. Trelford advised getting from the Chiclet people, flavour most in demand.

Dr. Marsh moved, seconded by Dr. Trelford, that the Advisory Committee recommend that the Board of Directors give serious consideration to having an independent analysis made of its products purchased in the open market at suitable intervals and the results be published in the Dental Journals. Carried.

Dr. Fisk named the following Committee: Drs. Yule, Doan, and Trelford to make suggestions regarding future activities of the Association.

Dr. Marsh moved, seconded by Dr. McMulkin, that Dr. Perkin be appointed Chairman of a special committee composed of members selected by himself, to investigate the present formulas of the Hutax Products endorsed by this Association and report the findings and recommendations to this Association, the expenses of this Committee to be met by the Association subject to the approval of the Board of Directors. Carried.

Dr. Fisk asked the Committee to give thought to the selection of a future President.

The meeting adjourned until the call of the Chairman.

.....G. Vernon Fisk.....Chairman.

.....A. L. Droughton.....Secretary.

COMMITTEES ARISING OUT OF MEETING, APRIL 28, 1942

FILMS:-- Drs. McMulkin, Williams, Martin

COMMITTEE TO SEE MCGILLIVRAY REGARDING A TWO ROW BRUSH:--

Drs. Coyne, McGregor, and Perkin.

CLINIC:-- Dr. Coyne appointed to give a Clinic on brushing teeth using Hutax brush.

FUTURE ACTIVITIES:--

Drs. Yule, Doan and Trelford to make suggestions regarding the future activities of the Association.

HUTAX FORMULAS:--

1924

The C. O. P. A. has done educational work for years and it is now actively engaged in it.

There has been some criticism of the methods of raising its funds for educational purposes.

This criticism has hampered all educational work.

An honest endeavor has been made by an independent group to eliminate this hindrance.

This committee suggests that a new organization be formed, with funds contributed from many different sources - such as Government and commercial enterprises.

The C. O. P. A. agrees with this, turning over all its educational work to the new body.

The new organization agrees to take over and carry on the entire educational work of the C. O. P. A. and the programmes already arranged, -

The C. O. P. A. providing a portion of ^{the} funds for this purpose only until the new organization is completed and functioning.

The C. O. P. A. makes this offer without any "strings" attached whatever, only desiring that under a 100% co-operation a greater good can be accomplished for dentistry and the public.

We feel that such a plan is one that the C.O.P.A. can support and assist in the formation of a new organization, using what is good in the C.O.P.A. and discarding what is doubtful. This would bring about a feeling of hearty co-operation from its 900 members, and settle largely the old feeling of dissention and evidence a feeling of fair-mindedness from those who are opposed to some of its principles, and have the very desirable effect of uniting the entire dental profession in one body. This would be a worthwhile accomplishment.

Meeting of the Board of Directors of the Canadian Oral Prophylactic Assn. July 16th 1942. Held at Dr. Grieve's office (Bloor + Yonge Sts) Toronto. Dr. Fisk drove. Broughton. Perkin

Dr. Perkin presented the report of the Committee appointed at the last meeting to investigate the Hawthorne pastille formulae. Suggested that we consider the substitution of Sodium Lactate for Glycerine but advised thorough investigation and suggested that Mr. Clark P.H.M.B. be asked to help us.

Moved by Dr. Broughton and Dr. Grieve that Dr. Fisk see Dean Bursali of the Coll. of Pharmacy and ask him to contact Mr. Clark and suggest that he make up some batches using Sodium Lactate as a substitute for glycerine and to retain the flavor as much as possible provided the cost is not prohibitive.

A typewritten report presented by Dr. Perkin is attached.

By Vernon Fisk

A combined meeting of the Canadian Oral Prophylactic Association Board and Advisory Committee was held on Tuesday, December 1st, 1942 at Hart House, Toronto.

Dr. G. V. Fisk was appointed Chairman of the meeting.

The Secretary read the minutes of the last joint meeting and they were approved.

ATTENDANCE: Drs. P. G. Anderson, N. S. Coyne, A. O. Derbyshire, A. W. Ellis, J. McMulkin, G. Grieve, R. E. Diprose, H. Thomson, V. Fisk, J. B. MacDonald, V. Large, F. Martin, W. Holmes and A. J. Broughton, R. G. Ellis, D. Gullett, S. A. MacGregor, G. V. Morton, and J. G. Perkin.

The Chairman read the report of the Committee on Future Activities of the Canadian Oral Prophylactic Association consisting of Drs. O. J. Yule, J. Trelford and F. Doan. He congratulated the Committee on the very comprehensive report and asked for a discussion. (Report appended.)

Moved by Dr. Grieve, seconded by Dr. Thomson that the report be received for discussion. Carried.

Dr. Morton thought that we should not sell a formula and trade name without retaining some control of the formula.

Dr. MacGregor advised that a detail man be engaged.

Dr. McMulkin congratulated the Committee on their report and asked the meeting to consider the question of whether we should "fold up" or "Carry on."

Dr. Diprose thought the Association had outlived its usefulness.

Dr. Coyne opposed the sale of the Canadian Oral Prophylactic Association and thought we could carry on, pay our debts and make a success of the Organization.

Dr. Anderson asked if in any way the Canadian Oral Prophylactic Association could be linked up with the Canadian Dental Association.

Dr. R. G. Ellis agreed with the last suggestion and thought it would add greatly to the usefulness of the Canadian Oral Prophylactic Association and supply funds to the Canadian Dental Association.

Dr. Thomson told the meeting that as far as his debt was concerned we could cancel the debt or adjust it as we liked. He thought that, in his opinion, an educational campaign backed by a dental product is not possible to-day but would be sorry to see the Canadian Oral Prophylactic Association go out of business as there is still work for it to do in education of the dentist.

Dr. McMulkin asked what Dr. Thomson thought of McGillivray Brothers.

Dr. Thomson in reply said "The firm of McGillivray Brothers has a very high standing in the Dominion."

The meeting decided to hear the report of the Committee formed to analyze the formula of Hutax Paste and Powder before putting the motion.

Dr. Perkin presented his Committee's Report and moved it be received and discussed, seconded by Dr. Anderson.

Dr. Large suggested that the average dentist be shown that Hutax is positively the best on the market.

Dr. Morton thought the dentist had for some reason a prejudice against recommending Hutax and we must first find out the cause of this opposition before we can get results.

Dr. R. G. Ellis said there was an underlying prejudice against the Canadian Oral Prophylactic Association in the minds of a great number of the younger members of the profession and suggested it be put in the hands of some Dominion wide organization, if possible, as there is an idea that the Canadian Oral Prophylactic Association is controlled by a clique.

Dr. Coyne reporting from the Committee appointed to consider the possibility of producing a two-row brush said, "The Committee could not contact McGillivray Brothers but in an unofficial way approached another Tooth Brush Manufacturer who said they could produce the brush." Dr. Coyne suggested that a dummy organization be set up to handle these brushes. It was moved by Dr. Coyne, seconded by Dr. McGregor that the report be received. Carried.

Dr. Gullett did not think there was any chance of the Government supplying monies for Dental Public Health and stated that the drug clerk who sold certain brushes got a premium. He thought if there was a connecting link between the Canadian Oral Prophylactic Association and the Canadian Dental Association it would result in more funds for the Canadian Dental Association but doubted if such an arrangement was feasible owing to the many tooth preparation advertisements in the Canadian Dental Association Journal.

Dr. Derbyshire wondered if the patient got the idea that the dentist was trying to put something over when he recommended Hutax.

Dr. Martin stated that the dentist does not know how the funds are expended and suggested the dentist be notified where the funds do go. Dr. Martin also suggested that the letters, educational to the dentist, sent out be made short and snappy.

Dr. Morton moved that the Canadian Oral Prophylactic Association continue with its activities, seconded by Dr. Grieve. Carried.

It was moved by Dr. A. W. Ellis, seconded by Dr. R. G. Ellis that the Committees continue their work and report to a later meeting of this Committee to be called by the Chairman on or about December 15th. Carried.

The meeting approved the suggestion that the Chairman ask Dr. Lloyd Grose to serve on the Advisory Committee.

Dr. Coyne expressed on behalf of this Committee its appreciation of Dr. Thomson's magnanimity regarding the obligations of the Canadian Oral Prophylactic Association are under to him.

Dr. Fisk suggested that a nomination committee be appointed to bring in a report regarding new directors and it was decided to leave this over until the next meeting.

Motion to adjourn. Carried.

.....G. Vernon Fisk.....Secretary

To the Directors of the Canadian Oral Prophylactic Association.

Report of the Committee formed to analyze the Formulae of Hutax Tooth Paste and Powder.

A preliminary meeting was held at the Royal Canadian Yacht Club on June 10th. Those present were Dr. Geo. H. W. Lucas, M. A. Ph.D., Dean R. Oscar Hurst, Phm.B., and Dr. J. Gestie Perkin. Dr. Lucas is Assistant Professor of Pharmacology, University of Toronto, and also Government analyst for the Canadian Racing Association. (Dr. Lucas does the saliva testing of the horses to check on any drugs administered to them prior to a race.) Dean Hurst is Dean of the Ontario College of Pharmacy, University of Toronto. At this meeting a copy of the formulae was given to Dr. Lucas and Dean Hurst and they were discussed in a general way.

A second meeting was held in the Medical Arts Board Room on June 23rd, at 7.30P.M. Those present were Dean Oscar Hurst, Dr. Geo. Lucas, Dr. Harry Thompson, Dr. Owen Yule, and Dr. Gestie Perkin. The formulae were thoroughly discussed. It was agreed that a tooth paste should possess the following properties;

1. It should be as near as possible neutral.
2. It should not have any chemical action in the mouth.
3. It should not contain any medicine.
4. It should have a low soap content, not over 4 per cent.
5. The abrasive must be soft and mild.

Hutax tooth paste and tooth powder have these properties. The soap content is just over 3 per cent, well under the limit of 4 per cent. The following suggestions were made;

1. Colour:

To colour the paste Amaranth U.S.P. & C.F. or Ponceau 3R., a food dye could be used instead of cochineal.

2. Taste:

The flavour might be changed by the use of oil of Cassia, also known as Oil of Cinnamon.

3. Glycerine:

Glycerine is used in tooth pastes as a sweetening agent or as a vehicle for the other drugs in the formula. It replaces syrup of a glucose character which is used in many tooth pastes but which is very undesirable. The supplies of glycerine are very

limited and a substitute for it was discussed. Two substitutes were suggested.

A. Sorbital, similar to Alex.

B. A 75 per cent solution of Sodium Lactate. *as fast*

4. Dean Hurst suggested that if any changes were made in the formulae, Mr. Cecil Clarke, a member of the faculty of the Ontario College of Pharmacy and also attached to the Drug Trading Co., could be employed to make up batches and try them out.

Yours fraternally

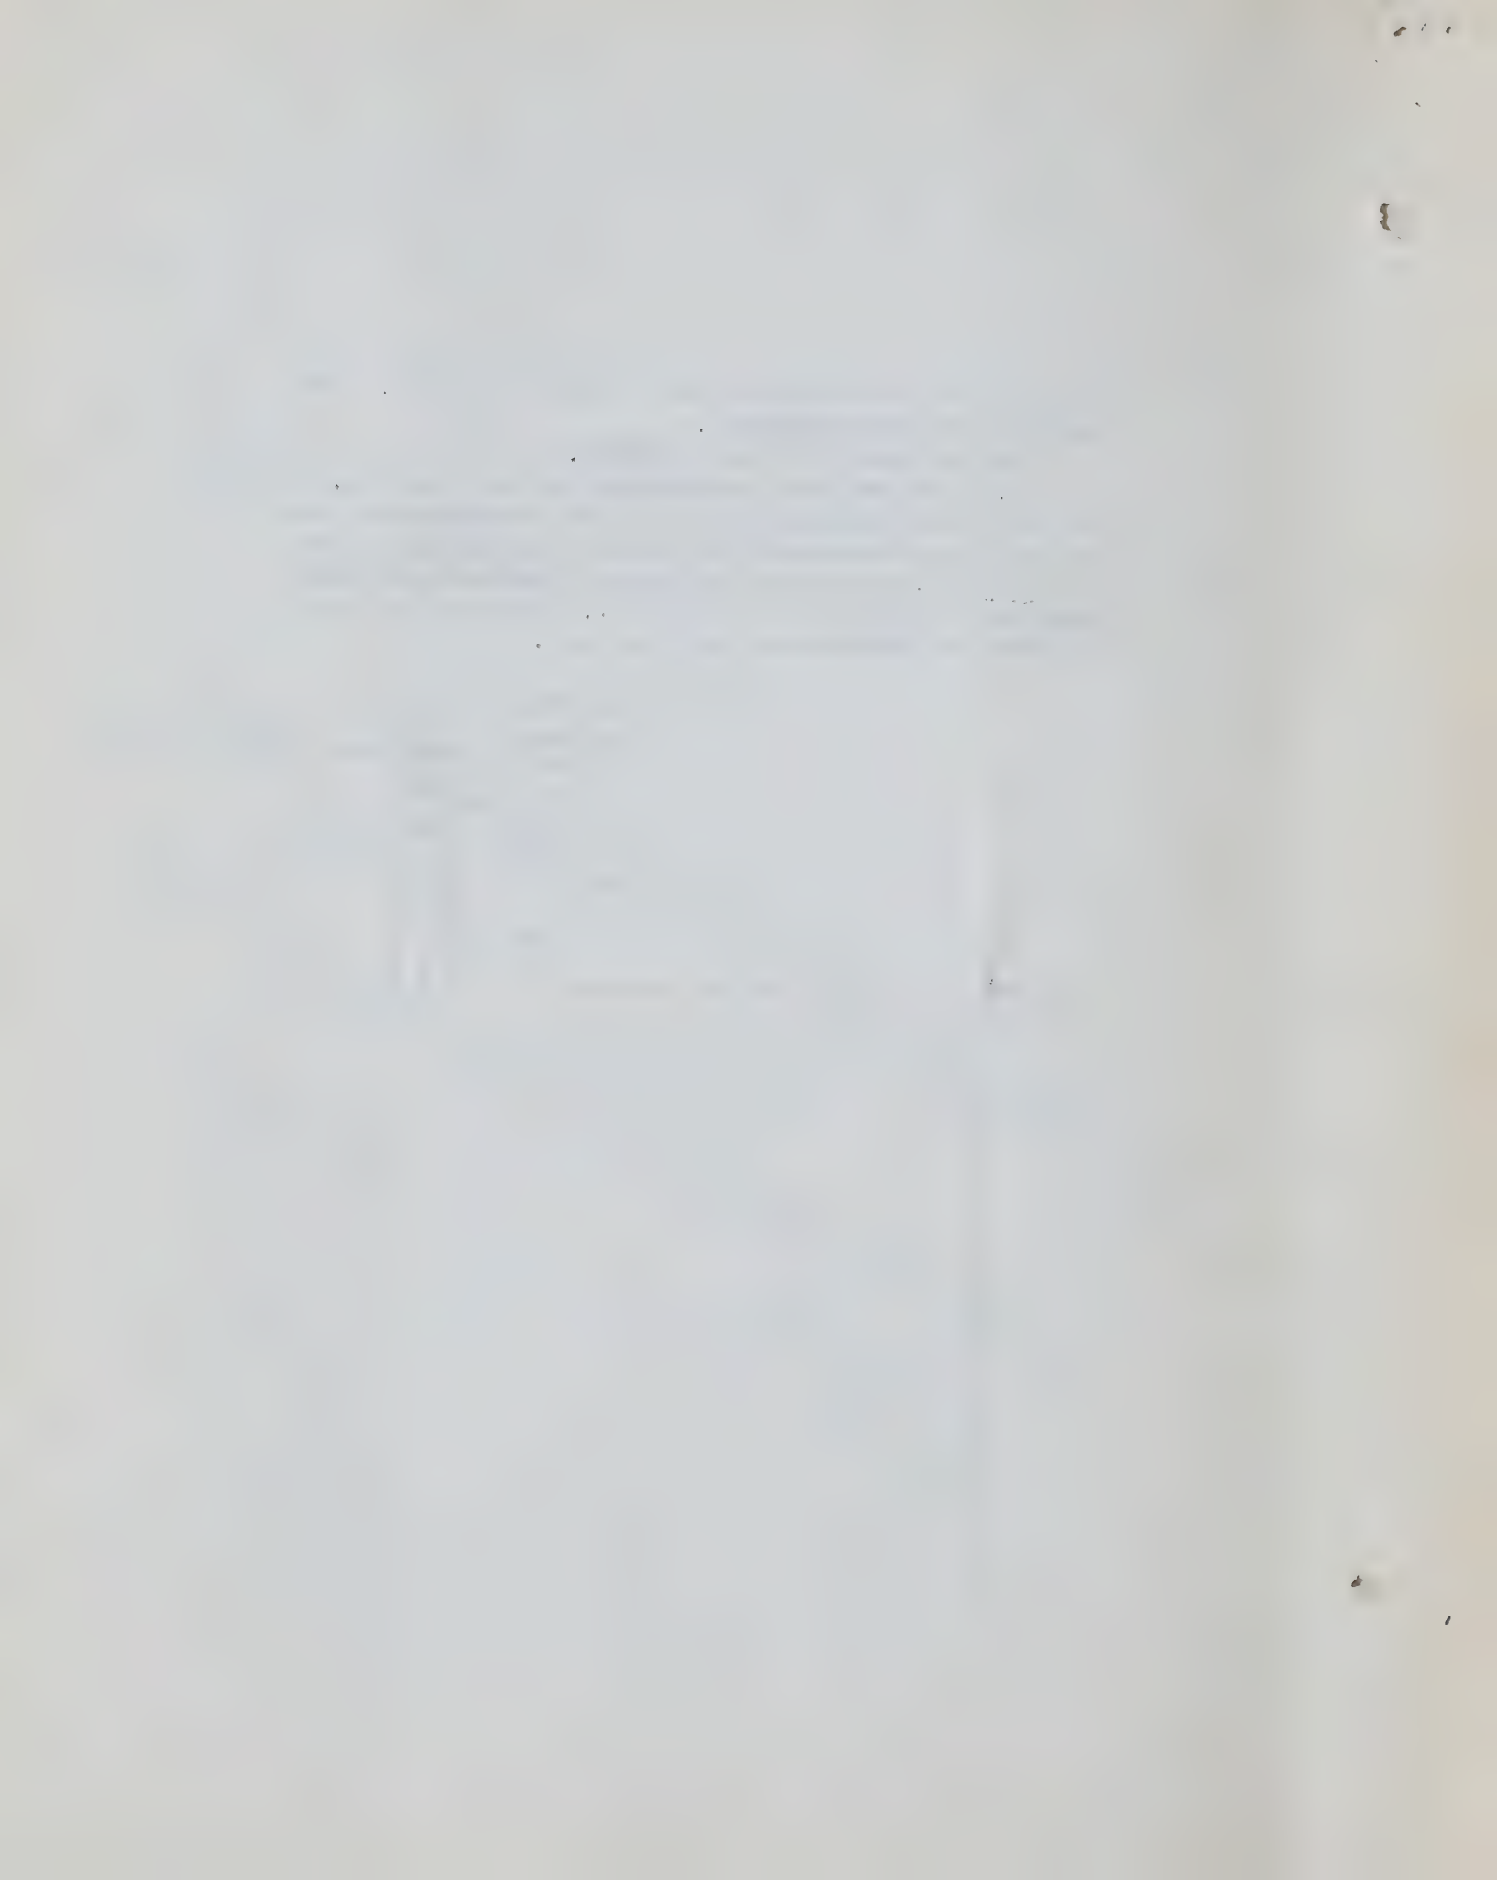

Gestie Perkin D.D.S., B.S.S.

mineral oil.

Sorbital -

all other series available.

Report of the Sub. Committee
to the Board of the C. O. P. A.

We suggest.

1. The debt to Dr. Harry Thompson should be settled.
2. The C. O. P. A. promoted Dentax Products in the past to give protection to the public and to give the dentist products he could recommend with confidence. The board should determine whether the C. O. P. A. has or has not outlined its usefulness.

A. If so then perhaps the formula and Trade Name can be sold for an amount at least equal to our debt. If the C. O. P. A. wishes to close its books and cannot find a buyer to pay the asking price we feel it could continue under present arrangements and that professional interest could be stimulated through articles in our journals and dentist to dentist, dentist to patient, advertising until such time as the royalties accumulate to ^{an} amount equal to Dr. Thompson's debt.

B. If the board decides the C. O. P. A. has not outlined its usefulness then the Dentax products must be able to compete on merit and methods of marketing.

1. On merit. The articles manufactured must be of proven merit & quality and tested regularly by proper qualified authority. Further, they should be of sufficient appeal to interest the public in continued buying.

1.a. Of proven merit & quality. Dr. Perkins' committee assumes that the quality of the ingredients of the Paste is vastly

inferior to that of other well advertised brands. The manufacturers assure us that the best quality bristles ^{available} are used in our brushes. The profession has not seriously questioned the design of the standard & lingual brushes.

i. Appeal. The sub-committee feel and we have found many dentists to agree with us that from the patients standpoint Dentax Paste lacks an appeal. The dentist recommends Dentax, the patient buys it, uses it up, and replaces it with another make. We feel it has no consumer appeal. A flavor should be found that is

mild
refreshing
lingering

ii. Tested regularly from shelf stock by qualified authority. The manufacturer should inform us when each new batch is put on the market and in the case of paste, new stock and old shelf stock, should be tested.

ii. On Marketing. The history of the C.O.P.A points out to us that the Association was most successful when there was a great need for the Dentax Products and when there was a good contact man going from dentist to dentist, creating appreciation and enthusiasm. The sub-committee suggest that the need today once we have suitable products is for an excellent contact man to take Dentax to the dentists and to the ~~druggists~~ druggists and to continually maintain his contacts. Salesmen are available today.

We feel the onus is on the manufacturer ~~and~~ under our

present financial arrangement with him to market the products under a system that would be the most likely to ensure their success and that would at the same time produce or show evidence of producing a reasonable profit for him.

If the manufacturer cannot afford out of his profits to pay a good salesman ^{to promote our} products the choice seems to be.

A. To reach a compromise and have the manufacturer pay part and part to come from our royalties.

B. To determine whether we could reduce the cost of the ingredients of the paste by using cheaper materials and yet produce a paste that would not be the least injurious.

C. To find a new and more enthusiastic manufacturer and promoter.

The time may not be opportune to open a new campaign owing to the difficulty of standardising our products.

The Sub. Committee recommends that the first endeavour of the board be to sell the Formula and Trade name to the highest reputable bidder provided the bid is sufficient to pay off our debt to Dr Harry Thompson.

For the Sub. Committee.

Dr J. Telford.

Dr F. Dean.

Dr O. F. Yule.

O. F. Yule (Chairman).

The Canadian Oral Propyl Lactic Acid.

Meeting of Board Dec 10th 42. at Dr. Fisk's office

Present Drs. Fisk M: Mulkin Grieve Broughton & Dr. Fisk

Secy. read minutes of last meeting

Secy. expense acct: \$6.25 passed

Moved by Dr M: Mulkin seconded by Dr Grieve. That an
honorarium of \$25.00 be sent to Prof. A. I. Clark for work
done analyzing Lactic Acid in an endeavor to find a
substitute for Glycerin Carried

Moved by Dr Broughton 2nd Dr Grieve that Dr Fisk appt.
Mr. W. L. Hagen who is sick on the Lactic Acid Committee and
be authorized to see Mr. L. H. Hagen regarding the production
of lactic acid Carried

Meeting of the Board & Advisory Committee held at the
Northdown Bldg 41 W. Temp. Street, Toronto, Dec. 10th at 1.15 PM
Present: Dr. McCulloch, McCulloch, P. B. Anderson, R. S. Ellis,
Dr. Ryshiere, Fisk, Griewe, Coyne, A. W. Ellis,
Higgins, Morton, Perkins, Wollatt, Bothwell,
Chapman, Huxley, Huxley, Thomas, C. L. Lufford,
George Broughton

The Secy read the minutes of the last meeting - approved
Dr. Fisk read a letter from Mr. L. H. Huxley, stating that
in a few weeks they hoped to be able to supply a
portion of the demand for Hutax Paste also that they had
no objection to the association obtaining brushes elsewhere
Moved by Dr. Coyne seconded Dr. Broughton That the Committee
investigating Hutax approach Mr. John Miller the Glycerine
Controller to see if we can obtain more Glycerine Carrier
Dr. Lufford advised pushing the Hutax powder at least
until we can obtain a paste without Glycerine

Report of Nominating Committee for Board of Directors

By-law No. I, Sec. 3, of the Constitution and By-laws of this Association reads as follows:-

Officers and their Duties

The affairs of the Association shall be managed by a Board of Five Directors, who may exercise all such acts and things as may be done by the Association, and are not by the Charter or By-laws of the Association, or by law, expressly directed or required to be done by the Association at General Meetings of the members.

Your Nominating Committee, Mr. President, begs to suggest the following members for election to the Board of Directors for the ensuing year:-

Dr. P. G. Anderson
Dr. Frank Martin
Dr. R. Gordon McLean
Dr. J. E. McMulkin
Dr. J. G. Perkin
